V.v: The explanation regarding the
difference in profit after tax compared to
the same period last year.

To: Hanoi Stock Exchange

Pursuant to Circular 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance guidance on information disclosure on the stock market and regulations on information disclosure at Hanoi Stock Exchange issued together with Decision No. 606/QD-SGD dated September 29, 2019 of the General Director of Hanoi Stock Exchange on explaining the reasons for the profit after tax index in the business results report, Song Cam Shipbuilding Joint Stock Company announced information as follows:

Profit after tax according to the Financial Report of the fourth quarter of 2024 is 24.436.680.689 VND; Profit after tax according to the Financial Report of the fourth quarter of 2023 is 8.942.605.724 VND. Thus, the profit after tax this period is higher than the profit after tax in the same period last year. The reason is that the number of products delivered is high, so the revenue from production and business activities in the fourth quarter of 2024 is higher than the fourth quarter of 2023, leading to higher profit after tax.

Above is the explanation of Song Cam Shipbuilding Joint Stock Company to Hanoi Stock Exchange.

Thanks a lot!
