Re: Explanation of the transition from
a net loss in Quarter 4 2023 to a net

Pursuant to the Securities Law No. 54/2019/QH14 dated November 26, 2019, Circular No. 96/2020/TT-BTC dated November 6, 2020, issued by the Ministry of Finance guiding information disclosure in the securities market, and the Information Disclosure Regulations of the Hanoi Stock Exchange,

Based on the financial statements for Quarter 4 2024, Chân Mây Port Joint Stock Company (Stock Code: CMP) hereby provides the following explanation regarding the transition from a net loss in Quarter 4 2023 to a net profit in Quarter 4 2024:

The Company's post-tax profit in Quarter 4 2023 recorded a loss of VND 4.488.869.688. However, in Quarter 4 2024, the corresponding figure was a profit of VND 10.572.960.775, reflecting a transition from a loss in Quarter 4 2023 to a profit in Quarter 4 2024.

The primary driver behind this fluctuation was the significant increase in the volume of goods handled through the port and the Company's revenue during Quarter 4 2024, which rose by over 56.2% and 54.1%, respectively, compared to the same period in 2023. Specifically, the volume increased by more than 783 thousand tons, and revenue grew by over VND 32.39 billion.

The above represents the key reasons for the transition from a net loss in Quarter 4 2023 to a net profit in Quarter 4 2024 as reported in the financial statements of Chân Mây Port Joint Stock Company.

We hereby affirm that the information provided is accurate, and we accept full responsibility before the law for the disclosed content.

Sincerely./.
