III. The implementation of the Resolution of the General Meeting of Shareholders in 2024 and the production and business plan in 2025.

In 2024, the Company's activities have advantages and difficulties, such as:

* *Advantages:* The company has experience after many years of operation according to the model and mechanism of the Joint Stock Company. The pillow work for 2024 is well prepared; along with the support of shareholders and investors; the efforts and efforts of the Board of Directors and the Board of Directors of the Company in organizing management and administration, proactively removing difficulties, concentrating resources to promote production and business development.

* *Difficulties:* In terms of quantity and quality of personnel, XMTB still lacks a lot that is not commensurate with GTSX. The construction market share of the Company of sea and island projects accounts for a large value of about 70-75%. The location is far from the mainland, and information is difficult. The administration is not favorable because the work serves national security and defense. Sign Revenue Records to recover capital extended due to geography. The market share of the sea and islands is large, so it is very difficult to mobilize resources and ensure continuous construction because of its unique and complex nature. Many works have changed their design, use functions and related legal procedures and have had to stop construction for a long time and cannot be implemented. Market prices fluctuate high, so it is very difficult to implement construction. Mineral materials (sand, stone) are scarce, prices are high, affecting the construction progress of works. Guaranteed capital for difficult projects. The marketing of job search is fiercely competitive, the weather situation is complicated, The above characteristics have a direct impact on the results of the Company's task performance.

Implementing the Resolution of the Annual General Meeting of Shareholders, the Board of Directors of the Company would like to inform shareholders of the production and business results in 2024 and the production and business plan in 2025 as follows:

1. Production and business results in 2024:

According to the Resolution approved by the General Meeting of Shareholders, the GTSX plan in 2024 is: VND 3,300 billion. With the support of shareholders, investors; the efforts and efforts of the Board of Directors and the Board of Directors of the Company in the organization of management and administration, The company has achieved the following results:

Quota	Units of Calculation	Implementation in 2023	2024 Plan	2024 Implement	Im.2024 Act.2023(%)	Act.2024 Pl.2024(%)
Production Value	Million VND	3.519.958	3.300.000	4.063.150	115	123

- The bidding marketing work is paid attention to and directed in the right direction, the works participating in the bidding have clear capital sources, do not bid for works and projects with unknown capital sources and do not bid at all costs. As a result of 2024, the whole Company won the bid and appointed bidders for 42 projects with a value of VND 2,114 billion, of which: bidding for 14 projects with a value of VND 668 billion, appointing bidders for 28 projects with a value of VND 1,446 billion. Some units have done a good job in marketing and bidding, creating jobs for employees not only in 2024 but also in the transition to 2025 to reach about 70% of the output value. The marketing and bid-winning works are of great value, are key projects of the Army and the State. The construction process is highly appreciated by the Investor.

- In 2024, the Company will construct 95 projects across the country, completing the handover: 50 projects. 100% of the works of the construction unit are of technical quality, of which over 90% of the works are of good and good quality. Highly appreciated by the Investor.

- Continue to pay attention to the management of quality, progress, security, safety and environmental sanitation during the construction process. The construction works ensure quality and fine art.

- The investment, repair and liquidation of assets and business tools have been thoroughly mastered by the Board of Directors and the organizing unit in strict accordance with the regulations of the State, the Ministry of National Defense, the Corporation, and the Company's regulations; improve the efficiency of management and use in service of production and business. Investing in the construction and repair of the Company's headquarters, building the headquarters of member units in the Northern region to ensure a long-term and stable workplace.

- The Company's production and business activities ensure the harmony of the interests of the State, enterprises, employees and shareholders.

2. The Company's development orientation in 2025:

Implementing the production and business tasks and building the unit in 2025, the Company has the following basic advantages: Continue to receive the support and help to create favorable conditions of the Investors, the trust and support of shareholders. Pillow work for 2025 and the following years will reach over 70%. The situation of the unit is stable, the top and bottom are united and have high determination.

In addition to the advantages, the Company has to face difficulties and challenges, namely: the world and regional political security situation will still be complicated and unpredictable; although the domestic economy is stable, it is forecasted that there are still many difficulties and challenges; unpredictable weather. Forms of bidding are wide, online competition is fierce; the price of input materials and fuels fluctuated. The situation of capital, employment, and cadre work in some units is still difficult; Carry out the construction of a number of key works and projects that require completion and handover in 2025.

In order to overcome difficulties, strive to successfully complete production and business tasks and build a strong and comprehensive unit; The Board of Directors of the Company shall determine the orientations, tasks and main measures to organize the implementation of tasks as follows:

Main targets in the production and business plan in 2025:

Quota	Units of Calculation	Implement Year 2024	Plan for 2025
Charter capital at the enterprise	Million VND	124.198	124.198
Production Value	Million VND	4.063.150	3.850.000
Total Revenue	Million VND	3.460.809	3.350.000
Profit before tax	Million VND	34.595	33.500
Profit margin before tax/revenue	%	1,00	1,00
Profit after tax	Million VND	27.064	26.800
Profit margin after tax/revenue	%	0,78	0,80
Dividend Ratio	%	65%PAX	65%PAX
Debt Recovery	Million VND	3.894.873	3.220.756
Debt recovery ratio/receivables	%	91	80

In 2025, the Company plans to invest in repairing and renovating the headquarters of Enterprise 36, invested by Da Nang City to build Nguyen Sinh Sac Street to extend and expand the Western Ring Road 2, affecting the entire headquarters and fence of Enterprise 36. On the other hand, the Headquarters of Enterprise 36 has been built for a long time (since 2005), has expired depreciation time, and seriously deteriorated and needs to be renovated to ensure a stable and long-term workplace, employees can rest assured to work.

3. Implementation solutions:

- Continue to arrange the organizational payroll with the motto of streamlining but meeting the requirements of the task. To recruit and add highly qualified managers and engineers to key positions to complete the organizational payroll and meet the requirements of the Company's development tasks.
- Continue to invest in motorcycle equipment to improve competitiveness in the market; in accordance with the Company's business lines and fields. Strengthen the management and use of motorcycle equipment to promote the efficiency and capacity of machinery and equipment after investment.
- Selective bidding to find jobs with medium and large-scale projects, focusing on infrastructure projects, traffic works, improving product quality, maintaining the Company's reputation and brand in the market.

- Continue to improve management capacity and competitiveness; Be proactive, creative, self-disciplined, and set an example for agencies, units and individuals. Maintain and implement more professionally the 4-5-6-7 process of project and work management throughout the Company.

- Using business capital for the right purposes; strictly implement the financial management regime; maintain contracting in tandem with management; strong decentralization for grassroots; attach the responsibility of the head to each specific job; associate power with responsibility; benefits go hand in hand with obligations, combining job creation with production and accounting organizations; encourage individuals to invest their own capital, do a good job of acceptance of payment and debt recovery to reduce loan capital.

- To build a system of management regulations in accordance with the law, open and reasonable, ensuring the harmony of interests of the State, enterprises, employees and shareholders. Distribute reasonable salaries on the basis of associating the interests of employees with productivity, product quality and development of the Company. Strictly maintain labor discipline and regulations on occupational safety - fire protection and traffic safety; resolutely not to allow serious unsafe incidents to occur in all fields.

- Further strengthen internal solidarity and transparency in finance; do a good job of ideological work for employees, build a cultural and spiritual life and improve public welfare, creating a high consensus. Building the brand of Thanh An 96 Construction Joint Stock Company to develop more and more sustainably./. *Ula*

REPORT

Investment results, liquidation of assets in 2024 and the investment plan, asset disposal in 2025

Implementing the Charter and Resolution of the Annual General Meeting of Shareholders of Thanh An 96 Construction and Installation Joint Stock Company in 2024;

Pursuant to the Regulation on Management of Investment and Use of Motorcycle Equipment and Construction Tools of the Company promulgated;

Based on the production and business results in 2024 and the production and business plan in 2025,

The Board of Directors of Thanh An 96 Construction and Installation Joint Stock Company reports on the results of investment and liquidation of assets in 2024 and the plan for investment and liquidation of assets in 2025 as follows:

I. Investment results and liquidation of assets in 2024:

1. Investment results: *(with a detailed table attached in Appendix 01/KQDT-2024)*

1.1. Construction investment: During the year, the Company invested in 02 items, including: The working office of member units of Thanh An 96 Construction and Installation Joint Stock Company in the Northern Region (in Hanoi City) and the renovation and upgrading of the working office of Thanh An 96 Construction Joint Stock Company with the following values: 34.102 billion.

1.2. Investment in Hoc Tra land exploitation mine (phase 1):

- The People's Committee of Quang Nam Province issued Decision No. 2006/QD-UBND dated September 22, 2023 approving the addition of areas not to auction mineral exploitation rights under the licensing authority of the Provincial People's Committee for exploration and exploitation for the construction of key projects funded by the State Budget in the province.

- The total planning area of Hoc Tra land mine is 8.7ha. The company has been granted a mineral exploitation license No. 241/GP-STNMT by the Department of Natural Resources and Environment of Quang Nam province on July 11, 2024 with an area of 5.8 hectares, geological reserves of 727,453m³; the exploitation reserve is 649,502m³, the exploitation capacity is 300,000m³ monoliths/year, the exploitation time is 02 years, 3 months and 22 days from the date of signing the mineral exploitation license.

- To ensure the demand for land embankment materials for 03 key projects with State budget capital of Quang Nam province under construction.
- The investment value for Hoc Tra land mine (phase 1) is: 16.5 billion VND.

1.3. Investment in motorcycles and equipment:

During the year, the Company invested a total of 19 portfolio of investment products with a value of VND 46,239 billion to ensure the construction of emergency projects according to the Prime Minister's Decision, architectural projects, including:

- Means of transport: 06 categories.
- Machinery and equipment: 13 categories.

2. Results of liquidation and sale of assets recovered from capital:

In 2024, the Company plans to apply for liquidation of assets including 20 lists of assets that have been depreciated with a historical cost of VND 1,481 billion (including 10 construction equipment, mainly concrete mixers, hydraulic hammers, steel bending machines and full-scale machines; 10 management equipment and tools, mainly photocopiers). However, because most of the construction equipment on remote islands has not been liquidated, the Company has switched to the liquidation plan in 2025.

3. General assessment of investment results and liquidation of assets:

The investment in increasing production capacity according to the needs of the unit, the investment process is carried out in accordance with the order and procedures and regulations promulgated. After investment, the management unit uses it for the right purpose, promoting working efficiency.

II. Investment plan, asset liquidation in 2024:

1. Investment plan: *(Details are attached in Appendix 02/KHDT-2025)*

1.1. Construction investment:

- Due to the investment of Da Nang city in the construction of the Nguyen Sinh Sac security road to extend and expand the Western Ring Road 2, affecting the entire headquarters and fences, gates and land area of Enterprise 36.

- Implementing official dispatches of documents of functional agencies on repurposing QP land for the implementation of the project on the strategic urgent route of QP in service of the military and people's livelihood;

- To meet working needs, ensure safety, suitable for the space and working conditions of agencies and units. In fact, the headquarters has been damaged and deteriorated, not suitable for the current working conditions, it is mandatory to renovate and repair it. The company has reported to the 11th Corps to propose the policy of repairing and renovating the Working Headquarters of Construction and Installation Enterprise 36 in the investment plan in 2025 with an expected value of VND 15 billion.

1.2 Mining investment:

1.2.1. For Hoc Tra Land Mining Project (phase 2):

- The mine for mining land leveling and construction in Hoc Tra area with a planned area of 8.7 hectares assigned the right to exploit without auction, has been granted a license of 5.8 hectares, and the remaining planned mine area is 2.9 hectares that have not been licensed. The application for a permit to expand Hoc Tra Land Mine (phase 2) with the remaining 2.9 hectares in order to meet the demand for supplying raw materials for the remaining projects in the province needs to be invested to meet the needs and progress of exploitation and land allocation for works.

- The plan to invest in equipment and infrastructure of Hoc Tra land mine (phase 2) is expected to be 10 billion VND.

1.2.2 For Suoi Mo Quarry Project (phase 2):

According to the guidance of the Provincial People's Committee, the new mineral law issued No. 54/2024/QH15 dated 29/11/2024; Decree 11/2025/ND-CP dated January 15, 2025 guiding the Law on Geology and Minerals on group IV mineral exploitation, it is mandatory to bid for this mine. The company continues to work to monitor and participate in bidding, because the company is investing and exploiting for many years. It is expected that when winning the bid, the Company will have to invest in more equipment and infrastructure for mining to ensure that the operation and exploitation are in accordance with the regulations approved by the authorities. The expected investment plan for equipment and infrastructure is: 16 billion VND.

1.3. Vehicles, Machinery, and Equipment Investment: In order to increase production capacity, based on the plan, measures, and progress of works being and preparing for construction. At the request of the units in 2025. The Board of Directors is expected to invest in: 40 categories of vehicles, machinery and equipment with a total estimated investment value: 46.29 billion VND. Vehicles, machinery and equipment invested for emergency construction, key works; traffic works and a number of upcoming projects.

2. Asset liquidation plan: *(Details are attached in Appendix 03/KH TXL-2025)*

Based on the quantity and quality of the Company's existing Motorcycles and Construction Equipment. Request the General Meeting of Shareholders to authorize the Board of Directors to direct the review of all foreign assets and other assets classified at level 5 that have expired depreciation, there is no need to use the proposal to allow liquidation of assets removed from payroll in accordance with regulations.

The above is the report on investment results and asset liquidation in 2024, the Company's investment plan and asset liquidation in 2025. Request the General Meeting of Shareholders to consider and approve./.

Respectively, 

Phan Xuân Bằng
