Information about the Corporation's subsidiaries, associates and joint ventures can be found in Note 4.

## 2. ACCOUNTING POLICIES AND SYSTEM APPLIED AT THE CORPORATION

### 2.1. Accounting period and currency used in accounting

The annual accounting period of the Corporation according to the calendar year begins on January 1 and ends on December 31 of each year.

The currency used in accounting records is Vietnamese Dong (VND).

### 2.2. Applicable accounting standards and system

#### *Applicable accounting system*

The Corporation applies the Corporate Accounting System issued under Circular No. 200/2014/TT-BTC dated December 22, 2014 by the Ministry of Finance and Circular No. 53/2016/TT-BTC dated March 21, 2016 by the Ministry of Finance on amending and supplementing a number of articles of Circular No. 200/2014/TT-BTC.

#### *Statement on compliance with Accounting Standards and System*

The Corporation has applied Vietnamese Accounting Standards and documents guiding the Standards issued by the State. The Financial Statements are prepared and presented in accordance with all provisions of each standard, circular guiding the implementation of the Standards and the current Corporate Accounting System being applied.

### 2.3. Basis for preparing the Separate Financial Statements

The Separate Financial Statements are presented on the historical cost principle.

The Separate Financial Statements of the Corporation are prepared on the basis of aggregating the Financial Statements of the independent accounting member units and of the Corporation's Office.

In the Separate Financial Statements of the Corporation, internal transactions and internal balances related to assets, capital sources and internal receivables and payables have been completely eliminated.

### 2.4. Financial instruments

#### *Initial recognition*

##### Financial assets

The financial assets of the Corporation include cash and cash equivalents, trade and other receivables, loans, short-term and long-term investments. At the time of initial recognition, financial assets are determined at purchase price/issuance cost plus other costs incurred directly related to the purchase and issuance of such financial assets.

##### Financial liabilities

The Corporation's financial liabilities include loans, trade payables and other payables, and accrued expenses. At the time of initial recognition, financial liabilities are determined at the issuance price plus costs directly related to the issuance of such financial liabilities.

#### *Value after initial recognition*

Currently, there are no regulations on revaluation of financial instruments after initial recognition.

## 2.5. Foreign currency transactions

Foreign currency transactions during the accounting period are converted into Vietnamese Dong at the actual exchange rate on the transaction date. This actual transaction exchange rate is determined according to the following principles:

- When buying and selling foreign currency: is the exchange rate specified in the foreign currency purchase and sale contract between the Corporation and the commercial bank;
- When contributing capital: is the foreign currency purchase rate of the bank where the Corporation opens an account on the date of capital contribution;
- When receiving capital contribution: is the foreign currency buying rate of the bank where the Corporation opens an account to receive capital from investors on the date of capital contribution;
- When recording receivables: is the buying rate of the commercial bank where the Corporation designates the customer to make payment at the time of the transaction;
- When recording payables: is the selling rate of the commercial bank where the Corporation plans to transact at the time of the transaction;
- When purchasing assets or making immediate payments in foreign currency: is the buying rate of the commercial bank where the Corporation makes the payment.

The actual exchange rate when revaluating monetary items denominated in foreign currencies at the time of preparing the Separate Financial Statements is determined according to the following principles:

- For items classified as assets: apply the foreign currency buying rate of the commercial bank where the Corporation regularly conducts transactions;
- For foreign currency deposits: apply the buying rate of the bank where the Corporation opens a foreign currency account;
- For items classified as payables: apply the foreign currency selling rate of the commercial bank where the Corporation regularly conducts transactions.

## 2.6. Cash and cash equivalents

Cash includes cash on hand and demand deposits.

Cash equivalents are short-term investments with a recovery period of no more than 03 months from the investment date, which are highly liquid, can be easily converted into known amounts of cash and are subject to an insignificant risk of conversion into cash.

## 2.7. Financial investments

*Held-to-maturity investments include:* Term deposits held to maturity for the purpose of earning periodic interest and other held-to-maturity investments.

*Investments in subsidiaries, joint ventures and associates* are initially recorded in the accounting books at cost. After initial recognition, the value of these investments is determined at cost less provision for impairment of investments.

*Equity investments in other entities include:* investments in equity instruments of other entities that do not have control, joint control or significant influence over the investee. The initial book value of these investments is determined at cost. After initial recognition, the value of these investments is determined at cost less provision for impairment of investments.

Provisions for impairment of investments are made at the end of the specific period as follows:

- For investments in subsidiaries and joint ventures: Provisions for impairment of investments is made based on the fair value of the investments as determined by the Corporation.
- For long-term investments (not classified as trading securities) and without significant influence on the investee:
  - + Investments in listed shares: provision is made based on the market value of the shares;
  - + Other investments are based on the fair value of the investments determined by the Corporation itself.
- For held-to-maturity investments: based on the ability to recover to set up provisions for doubtful debts in accordance with the provisions of law.

## 2.8. Receivables

Receivables are monitored in detail by receivable terms, debtors, types of foreign currency receivable, and other factors according to the management needs of the Corporation. Receivables are classified as short-term and long-term in the Financial Statements based on their remaining terms as of the reporting date.

Provision for doubtful debts is made for the following amounts: overdue receivables recorded in economic contracts, loan agreements, contractual commitments or debt commitments and receivables that are not due for payment but are unlikely to be recovered. In particular, the provision for overdue receivables is based on the principal repayment period according to the original sales contract, without considering any debt extensions between the parties and receivables that are not due for payment but the debtor has gone bankrupt or is in the process of dissolution, missing or absconding.

## 2.9. Inventories

Inventories are initially recognized at cost, including: purchase costs, processing costs and other directly related costs incurred to bring the inventories to their current location and condition at the time of initial recognition. After initial recognition, if the net realizable value of inventories is lower than their cost at the time of preparing the Financial Statements, the inventories are recorded at net realizable value.

The value of inventories is determined using the weighted average cost method.

Inventories are accounted for using the perpetual inventory method.

Provisions for inventory devaluation are made at the end of the reporting period as the difference between the cost of inventories and their net realizable value when the latter is lower.

## 2.10. Fixed assets and Leased fixed assets

Tangible fixed assets and intangible fixed assets are initially recognized at cost. During use, tangible fixed assets and intangible fixed assets are recognized at cost, accumulated depreciation and residual value.

Depreciation of fixed assets is calculated using the straight-line method over the following estimated useful lives:

- |                            |                 |
|----------------------------|-----------------|
| - Buildings and structures | 10 - 50 year    |
| - Machinery and equipment  | 05 - 15 year    |
| - Transportation vehicles  | 06 - 10 year    |

### 2.11. Investment properties

Investment properties are initially recognized at cost.

For investment properties held under operating leases, they are recognized at original cost, accumulated depreciation and residual value. Depreciation is calculated using the straight-line method with the estimated depreciation period as follows:

- Buildings and structures 10 - 50 year

### 2.12. Construction in progress

Construction in progress includes fixed assets that are being purchased and constructed but not yet completed at the end of the accounting period and are recognized at cost. This cost includes construction expenses, equipment installation costs, and other directly related costs.

### 2.13. Operating leases

Operating leases are leases of fixed assets in which the majority of the risks and rewards incidental to ownership of the asset remain with the lessor. Payments under operating leases are recognized in the Income Statement on a straight-line basis over the lease term.

### 2.14. Prepaid expenses

Expenses incurred in relation to the results of production and business activities of many fiscal years are recognized as prepaid expenses and gradually allocated to the results of business activities in subsequent years. The Company's prepaid expenses include:

- Tools and instruments include assets held by the Corporation for use in normal business activities with an original cost of less than 30 million VND, which do not meet the criteria for recognition as fixed assets under current regulations. The original cost of tools and instruments is allocated using straight-line basis over a period of 36 months.
- Goodwill arising from the equitization of State-owned enterprises are allocated gradually but not exceeding 10 years.
- Other prepaid expenses are recognized at original cost and allocated using the straight-line method over their useful life of 36 months.

### 2.15. Payables

### 2.16. Borrowings and financial lease liabilities

Borrowings and financial lease liabilities are tracked by each lender, loan agreement and the repayment term of the borrowings and financial lease liabilities. In case of borrowing and liabilities in foreign currency, detailed tracking is done in the original currency.

### 2.17. Borrowing costs

Borrowing costs are recognized in production and business expenses in the period incurred, except for borrowing costs directly related to the investment in construction or production of unfinished assets, which are included in the value of those assets (capitalized) when meeting all the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing costs". In addition, for separate loans serving the construction of fixed assets, investment properties, interest is capitalized even when the construction

### 2.18. Accrued expenses

Payables for goods and services received from suppliers or provided to customers during the reporting period but not actually paid and other payables such as vacation pay, seasonal downtime costs, and accrued interest on borrowings, etc. are recognized in the production and business expenses of the reporting period.

The recognition of accrued expenses into production and business expenses in the period is carried out according to the principle of matching between revenue and expenses incurred in the period. Accrued expenses will be settled with the actual expenses incurred. The differences between the provisions and the

### 2.19. Deferred revenue

Deferred revenue includes advance payments received from customers for one or multiple fiscal periods for asset leases.

Deferred revenue is transferred to Revenue from sale of goods and provision of services based on the amounts appropriately allocated to each fiscal year.

### 2.20. Owner's equity

Owner's equity is recognized based on the actual contributed capital of the owners.

Undistributed profit after tax reflects the business results (profit, loss) after corporate income tax and the situation of profit distribution or loss handling of the Corporation. Profit distribution is made when the undistributed profit after tax does not exceed the undistributed profit after tax on the Consolidated Financial Statements after excluding the impact of profits recorded from bargain purchases. Undistributed profit after tax can be distributed to investors based on their capital contribution ratio after being approved by the General Meeting of Shareholders and after setting aside funds as required by the Corporation's Charter and the provisions of the laws of Vietnam.

The Corporation establishes the following funds from net profit after corporate income tax as proposed by the Board of Management and approved by shareholders at the Annual General Meeting of Shareholders:

- Development investment fund: This fund is set aside to serve the expansion of operations or in-depth investment of the Corporation.
- Bonus and welfare fund and Executive Board Bonus Fund: This fund is set aside to reward, encourage materially, bring common benefits and improve the welfare of employees and is presented as a payable on the Separate Balance Sheet.

Dividends payable to shareholders are recognized as payables on the Balance Sheet of the Corporation after the Board of Management announces the dividend distribution and the Vietnam Securities Depository Center announces the dividend payment date.

### 2.21. Revenue

#### *Revenue from sale of goods*

Revenue from sale of goods is recognized when all the following conditions are met:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer;
- The Corporation no longer holds the right to manage the goods as the owner of the goods or has the
- Revenue can be measured reliably;

- The Corporation has received or is certain to receive the economic benefits associated with the transaction;
- The costs related to the transaction can be determined.

*Revenue from provision of services*

Revenue from provision of services is recognized when all the following conditions are met:

- Revenue can be measured reliably;
- The economic benefits associated with the transaction are likely to be obtained;
- The stage of completion of the service as of the Balance Sheet date can be measured;
- The costs incurred for the transaction and the costs to complete the transaction can be determined.

The stage of service completion is determined using the percentage-of-completion method.

*Revenue from sale of properties*

Revenue from sale of properties is recognized when all the following conditions are met:

- The property has been fully completed and handed over to the buyer, the Corporation has transferred the risks and rewards associated with the ownership of the property to the buyer;
- The Corporation no longer holds the right to manage the property as the owner of the real estate or has the right to control the property;
- Revenue can be measured reliably;
- The Corporation has received or is certain to receive the economic benefits associated with the transaction;
- Costs related to the transaction can be determined.
- The risks and rewards associated with the land use right have been transferred to the buyer;
- Revenue can be measured reliably;
- Costs related to the land use right transfer transaction can be determined;
- The Corporation has received or is certain to receive the economic benefits associated with the

*Revenue from operating leases*

Revenue from operating leases, primarily related to leasing buildings and structures, are recognized in the Income Statement using straight-line method over the lease term as stipulated in the lease contract.

*Revenue from construction contracts*

- Construction contracts stipulate that contractors are paid based on the value of the performed volume. When the results of the construction contract are reliably determined and confirmed by the customer, the revenue and expenses related to the contract are recorded corresponding to the completed work confirmed by the customer in the fiscal year reflected on the issued invoice.

*Revenue from financial activities*

Revenue arising from interest, royalties, shared dividends and profits and other financial revenue is recognized when both (2) of the following conditions are met:

- The economic benefits associated with the transaction are likely to be obtained;
- Revenue can be measured reliably.

Shared dividends and profits are recognized when the Corporation is entitled to receive dividends or profits from capital contributions.

## 2.22. Revenue deductions

Revenue deductions from sale of goods and provision of services arising during the period include: Sales discounts, sales allowances and sales returns.

Sales discounts, sales allowances, and sales returns arising in the same period as the consumption of products, goods, and services are adjusted to reduce the revenue of that period. In the case of products, goods, and services that have been consumed in previous periods and revenue deductions arise in the following period, the Corporation shall record a reduction in revenue according to the following principle: if they arise before the issuance of the Financial Statements, the Corporation shall record a reduction in revenue on the Financial Statements of the reporting period (previous period), and if they arise after the issuance of the Financial Statements, the Corporation shall record a reduction in revenue of the arising

## 2.23. Cost of goods sold

The cost of goods sold in the period is recorded in accordance with the revenue arising in the period and ensures compliance with the principle of prudence.

## 2.24. Financial expenses

Expenses recorded in financial expenses include:

- Expenses or losses related to financial investment activities;
- Borrowing costs;
- Provision for devaluation of trading securities, provision for investment losses in other entities, losses arising from the sale of foreign currencies, exchange rate losses, etc.

These expenses are recognized in the total amount incurred during the period without offsetting them against revenue from financial activities.

## 2.25. Corporate income tax

a) Current corporate income tax expense

Current corporate income tax expense is determined on the basis of taxable income in the period and corporate income tax rate in the current accounting period.

b) Current corporate income tax rate

The Corporation is subject to a corporate income tax rate of 20% for business activities with taxable income.

## 2.26. Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties of the Corporation include:

- Enterprises that directly or indirectly through one or more intermediaries control, or are controlled by, or are under common control with the Corporation, including parent companies, subsidiaries and associates;
- Individuals who directly or indirectly hold voting rights of the Corporation and have significant influence over the Corporation, key management personnel of the Corporation, and close family members of these individuals;
- Enterprises in which the above individuals directly or indirectly hold a significant portion of voting rights or have significant influence over these enterprises.

In considering each related party relationship for the purpose of preparing and presenting the Separate Financial Statements, the Corporation pays attention to the substance of the relationship rather than the legal form of such relationships.
