2. Declaration of compliance with Accounting Standards and Accounting System

- The Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

IV. MAJOR ACCOUNTING POLICIES

1. Principles for determining cash amounts: cash, bank deposits, money in transit.

- Principles for determining cash equivalents:
 - + Are short-term investments with a recovery or maturity of no more than 3 months, which can be easily converted into a certain amount of cash and are not subject to much risk in converting into cash from the date of purchase of the investment at the reporting date.
- Principles and methods for converting other currencies into the currency used in accounting.
 - + Transactions arising in foreign currencies are converted at the exchange rate on the date of occurrence.
 - + At the end of the accounting year, cash items, receivables, payables with foreign currency origin are revalued at the bank exchange rate on the date..... VND/USD exchange rate. Exchange rate differences arising from these transactions are recorded in the Business Performance Report.

2. Inventories:

- Inventories are determined on the basis of original cost. Original cost of inventories includes costs of purchase, costs of conversion and other directly related costs incurred in bringing the inventories to their present location and condition.
- Original cost of inventories is calculated by the weighted average method and accounted for by the perpetual inventory met

- Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

3. Trade receivables and other receivables

Trade receivables and other receivables are recorded according to invoices and documents.

Provision for bad debts is made for each doubtful debt based on the age of the debt or the expected loss that may occur, specifically as follows:

- For overdue debt:
 - + 30% of the value for debt overdue for less than 1 year.
 - + 50% of the value for debt overdue from 1 year to less than 2 years.
 - + 70% of the value for debt overdue from 2 years to less than 3 years.
 - + 100% of the value for debt overdue for 3 years or more.
- For receivables that are not overdue but are unlikely to be recovered: base on expected loss level to set up provisions.

4. Fixed assets:

Fixed assets are stated at original cost less accumulated depreciation. The original cost of fixed assets includes all costs incurred by the Company to acquire fixed assets up to the time when the assets are ready for use. Expenses incurred after initial recognition are only recorded as an increase in the original cost of fixed assets if it is certain that these costs will increase future economic benefits from the use of such assets. Expenses that do not satisfy the above conditions are recorded as expenses in the period.

When fixed assets are sold or liquidated, the original cost and accumulated depreciation are written off and any gain or loss

arising from the liquidation is included in the income or expenses of the period.

Fixed assets are depreciated using the straight-line method over their estimated useful lives. The depreciation years of fixed assets are as follows:

<u>Fixed Asset Types</u>	<u>Years</u>
Machinery, equipment	2 – 12
Vehicles, Transportation equipment	6
Office equipment and furniture	2 – 6

5. Investment properties:

Investment properties are infrastructures owned by the Company and used for the purpose of earning rental income. The original cost of investment properties is all costs incurred by the Company to acquire the investment properties up to the time of completion of construction.

Expenditures related to investment properties incurred after initial recognition are recorded as expenses in the period, unless these costs are likely to make the investment properties generate economic benefits in the future more than the initially assessed level of performance, then they are recorded as an increase in the original cost.

When investment properties are sold, the original cost and accumulated depreciation are written off and any resulting gains or losses are recorded as income or expenses in the period.

Investment properties are depreciated using the straight-line method over their estimated useful lives. The depreciation period of investment property is 6 years for the base station and 5 years for the combined station.

6. Financial investments:

Investments in securities, subsidiaries and associates are recorded at cost.

Provision for securities depreciation is made for each type of securities traded on the market and whose market price is lower than the price recorded in the books. Provision for losses on financial investments in subsidiaries and associates is made when these companies suffer losses (except for losses according to the plan determined in the business plan before the investment) with the provision corresponding to the Company's capital contribution ratio.

When liquidating an investment, the difference between the net liquidation value and the book value is recorded as income or expenses in the period.

7. Other expenses:

- Prepaid expenses: are recorded at original cost and classified into short-term and long-term.

- The method of allocating prepaid expenses follows the principles:

+ According to the determined useful life: This method applies to prepaid rent and land tax.

+ According to the conventional useful life: This method applies to advertising expenses, tools, equipment, mold costs allocated for no more than two years

8. Accrued expenses

Accrued expenses are recorded based on reasonable estimates of the amount payable for goods and services used during the period.

9. Provision for payables

Provision for warranty obligation of construction project is estimated from 1% on value of the project, provision for warranty obligation of goods is estimated from 0.35% on value of goods. This rate is estimated based on data on warranty expenses in previous years and evaluation made by the Board of General Directors on actual time and expenses for warranty.

10. Owner's equity

- Principles for recording owners' invested capital, surplus capital, and other owners' capital;
- Principles for recording differences in asset revaluation;
- Principles for recording differences in exchange rates;
- Principles for recording undistributed profits.

11. Revenue

When selling goods, finished goods, revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer and no significant uncertainties remain regarding the payment of consideration, associated costs or the possible return of goods.

When providing services, revenue is recognized when there are no significant uncertainties regarding the payment of consideration or associated costs. In case the service is performed over several accounting periods, the determination of revenue in each period is based on the percentage of completion of the service at the end of the period.

Interest, dividends and profits are recognized when the Company is able to obtain economic benefits from the transaction and the revenue is determined relatively reliably. Interest is recognized on the basis of time and interest rate for each period. Dividends and profits are recognized when shareholders are entitled to receive dividends or capital contributors are entitled to receive profits from their capital contribution.

12. Financial expenses

- Financial expenses include short-term borrowing costs from banks and other entities to serve the company's production and business activities. Interest rates applied to other borrowers are agreed upon but do not exceed 150% of the bank's lending interest rate. Borrowing costs are recorded in the income statement when incurred.
