b. Subsidiaries, Affiliates: None

4. Financial situation:

Some financial indicators as of December 31, 2024:

			<i>Unit: VND</i>
Target	2023	2024	Fluctuation
1. Total assets	599.765.197.171	558.340.362.532	(41.424.834.639)
- Short-term assets	219.612.901.931	183.624.235.079	(35.988.666.852)
- Long-term assets	380.152.295.340	374.716.127.453	(5.436.167.887)
2. Total capital	599.765.197.171	558.340.362.532	(41.424.834.639)
- Liabilities	523.467.498.250	502.280.045.571	(21.187.452.679)
- Equity capital	76.297.698.921	56.060.316.961	(20.237.381.960)
3. Lỗ lũy kế	(141.625.778.659)	(161.863.160.619)	(20.237.381.960)

Looking at the figures on the Balance Sheet as of December 31, 2024, we can see that the total assets and capital of the reporting period compared to the beginning of the period decreased by 41.42 billion VND, equivalent to 9.6%, due to a decrease in short-term assets and long-term assets (depreciation during the period) and capital also decreased accordingly. That means that the unit is facing many general financial difficulties as shown below:

• About asset structure:

Short-term assets decreased by VND 35.99 billion and decreased by 16.39% (35.99/219.61) compared to the beginning of the period, of which: Inventory decreased by VND 22.07 billion (decreased by 24.44% compared to the beginning of the period), short-term receivables decreased by VND 15.83 billion (decreased by 15.72% compared to the beginning of the period), Other short-term assets decreased by VND 1.09 billion (decreased by 47.02% compared to the beginning of the period), Cash and short-term financial investments increased by VND 3 billion (increased by 10.25% compared to the beginning of the period). The increase and decrease of some of the above indicators are due to: The Company settled the National Highway 217 project according to the Court's

decision, reducing the value of inventory and receivables; Partial recovery of customer debts.

Long-term assets were VND 374.72 billion, down VND 5.43 billion compared to the same period in 2023 due to the company recovering receivables, depreciating assets and allocating repair costs for building 38A.

• **About capital structure:**

Payables were 502.28 billion VND, down 21.19 billion VND and down 4.05% compared to the beginning of the period, the reason for the decrease was due to short-term payables decreasing by 4.2 billion VND, unrealized revenue decreasing by 16.2 billion VND and long-term payables decreasing by 0.68 billion VND;

Owner's equity decreased by VND 20,237 billion and decreased by 26.5% compared to the beginning of the period, reflecting the unit's production and business results in 2024, the corresponding profit was equal to (20,237) billion VND and the current Owner's equity was only VND 56.06 billion and equal to 26.7% of the initial owner's equity.

The above data shows that the unit's production and business results in 2024 continue to face many difficulties, the profit in 2024 is (20,237) billion VND, increasing the accumulated loss value, leading to the risk of complete loss of equity in the coming years, which is likely to occur if production and business activities do not have a breakthrough.

After the unit completed the Director position, the Executive Board made efforts to find and implement many solutions to remove difficulties for the Company. In 2024, the Board of Directors of PVC-TH had a policy of limiting participation in construction bid packages that did not ensure capital safety. Therefore, the Board of Directors directed the unit to focus on office leasing business, debt collection, participating in bidding for bid packages using State capital and solving existing problems of the unit:

2. Financial situation:

a. Asset situation:

As of December 31, 2024, the Company's total assets are: VND 558,340,362,532, fluctuation compared to 2023: VND 599,765,197,171. 3. Improvements in organizational structure, policies, and management:

In 2024, the Company will implement the Company's management organization structure according to the model prescribed in Point b Clause 1 Article 137 of the Enterprise Law 2020 as follows: General Meeting of Shareholders, Board of Supervisors, Board of Directors and Board of Management.

In 2024, PVC-TH has oriented to comprehensively restructure the unit, reduce indirect labor, increase direct labor, and re-evaluate the personnel structure in accordance with the Company's production and business situation. Strictly control construction costs as well as increase savings on management costs at the Company.

4. Future development plan:

No	Target	Unit of measure	Plan in 2025	Note
1	Output value	Billion VND	68,29	
1.1	Output from construction activities	Billion VND	42,00	
1.2	Output from other activities	Billion VND	28,29

4	Investment value	Billion VND	2,00	
5	Submit to the State Treasury	Billion VND	0,6	
6	Average income	Million VND/Person/Month	9,5	

Solutions to implement the Company's 2025 business plan are as follows:

- Continue to develop a plan to restructure PVC-TH, rearrange the organizational model to ensure streamlining, efficiency, and suitability with the unit's production and business activities; Improve the capacity and quality of the executive apparatus, rearrange personnel and labor appropriately to improve labor productivity and reduce management costs to ensure the Company's operations;
- Expanding business activities to include service and trade business areas such as: gasoline, asphalt, educational equipment,... to contribute to completing the 2025 plan;
- Maximize all resources, focus on improving construction capacity, building a professional bidding team, strengthen the marketing of bidding for projects with safe capital sources (with State budget capital, public investment capital and capital of State-owned enterprises); Directly direct the work of preparing acceptance records, settlement and capital recovery, debt collection at projects/works, personal debt collection to supplement capital sources for the Company's production and business activities; Strengthen inspection and supervision of accounting work, cash flow management for each project/bid package/work item; Continue to implement construction works to ensure safety, quality, and on schedule with the Investor;
- Continue to initiate lawsuits to collect debts from units/individuals with complete legal documents and the ability to pay debts;
- Strengthen the search for units/customers who need to rent office space, bringing revenue to PVC-TH;

- Strengthen training and human resource development, have a reward mechanism to encourage employees to perform their duties well;
- Continue to improve corporate governance, balance cash flow and risk management, review and improve the Company's internal regulations and rules to ensure compliance with current State regulations and the Company's Charter.

5. Assessment report related to the Company's environmental and social responsibility:

a. Assessment related to labor issues: The Company's Board of Directors and all employees always strive to closely follow the business plan approved by the General Meeting of Shareholders. In addition, the Company also tries to create maximum conditions for employees to improve their professional qualifications and fully participate in the Company's welfare programs.

b. Assessment related to corporate responsibility towards local communities: Fully participate in the launching programs.

IV. BOARD OF DIRECTORS' ASSESSMENT OF THE COMPANY'S PERFORMANCE:

In 2024, the Company has made personnel changes in the Board of Directors (BOD), the Board of Management and the functional Departments/Offices. With major changes in organization and the dedication and determination of the leadership team and all employees of the Company, the Board of Directors hopes that in 2025, the Unit will have a strong transformation to gradually help the Unit escape from the difficulties that have existed for so long. To realize the goal, the Board of Directors has the following assessments and plans:

1. Board of Directors' assessment of the Company's operations:

a. On production and business results:

In 2024, the Company will continue to operate mainly in the fields of construction and office leasing. However, construction activities are ineffective, many years of losses and the office leasing market in Thanh Hoa is saturated, so the output and revenue in 2024 have not been achieved compared to the set plan,

Specifically:

- Actual output value in 2024: 6.31 billion VND, reaching 59.1% of the plan.
- Revenue realized in 2024: 18.22 billion VND, reaching 86.8% of the plan.

b. Regarding job marketing and construction implementation at construction sites/projects:

The Board of Directors as well as the Executive Board always make efforts and are active in job search and bidding marketing. However, due to the unit's limited bidding capacity, in 2024 the Company did not receive any suitable construction projects;

Focus on directing and supervising the Company's production and business operations, promoting the settlement of completed projects for the purpose of capital recovery.

c. Regarding debt collection:

Focus on collecting and handling outstanding debts of collectives/individuals, personal advances, bad debts, and debts of a complicated nature that require legal intervention, promoting collection to create cash flow for production and business activities.

There are still many overdue/overdue bad debts between PVC-TH and investors/contractors/joint ventures. PVC-TH has been carrying out lawsuit procedures at competent authorities to recover debts for the Company.

d. On the work of reorganizing and innovating Enterprises:

Reorganize the organizational structure, reduce indirect labor, concentrate direct labor force at construction sites, direct production and business departments, establish construction teams, focus on recruiting technical staff with professional qualifications and experience to serve the bidding marketing work, prepare payment and settlement documents as well as construction management.

Build a salary and bonus payment mechanism based on capacity and labor productivity, encouraging highly qualified and skilled workers. Have a mechanism to pay brokerage commissions and business bonuses to encourage employees to increase marketing activities for leasing the Building.

Besides, PVC-TH is continuing to review and adjust the functions and tasks between specialized Departments/Offices to suit the actual production and business situation of the Company.

e. About labor and salary:

- Total number of employees as of December 31, 2024: 35 people
- In 2024, the average income of workers will be stable compared to the previous year.
- Average income in 2024: 9.5 million VND/person/month.

f. Shareholder affairs:

PVC-TH Company has published information about Periodic Reports and Unusual Reports on the Company's website, as well as sent reports to the State Securities Commission and the State Securities Exchange accurately and completely in accordance with the provisions of the Law and the Company's Charter.

Issues related to updating and adjusting shareholders' information are always received and adjusted by the Company in accordance with the provisions of the Law.

2. Board of Directors' assessment of the performance of the Company's Board of Directors:

The Board of Directors closely monitors the Board of Management to implement the contents of the Board of Directors' Resolution. The members of the Board of Directors are all qualified, capable and qualified, knowledgeable in the assigned fields and have experience in management and operation.

Based on the 2024 business results, the Board of Directors highly appreciates the role of the Company's Board of Directors in being proactive, having many operational solutions and making many efforts in accordance with the actual situation.

The Board of Management has implemented the unit's production and business activities in basic accordance with the Resolution of the General Meeting of Shareholders and the direction of the Board of Directors in compliance with the Company's Charter and the provisions of the Law.

The Board of Management has worked and held regular meetings to rectify production and business activities in line with the general direction, promptly resolving difficulties and obstacles in the production and business process such as: Acceptance and settlement of construction works, debt collection. The Board of Management also has positive solutions in balancing capital sources to pay salaries, social insurance and other regimes for employees.

3. Plans and directions of the Board of Directors:

The Board of Directors plans to promote the search for marketing information for bidding projects inside and outside the industry, strengthen marketing for leasing high-yield buildings; expand business activities; research solutions to improve the efficiency of production and business activities.

V. Corporate Governance:

1. Board of Directors:
