**III. ACCOUNTING STANDARDS AND SYSTEM**

**1. Accounting system**

The company has been applying the Vietnamese Enterprise Accounting system under the guidance in the Circular No. 200/2014/TT-BTC dated December 22, 2014; Circular No. 53/2016/TT-BTC dated March 21, 2016 amending and supplementing a number of articles of Circular No. 200/2014/TT-BTC and the Vietnamese Accounting Standards issuing by the Ministry of Finance.

The Company applies Circular No. 202/2014/TT-BTC dated December 22, 2014 in the preparation and presentation of the consolidated financial statements.

**2. Statement on the compliance with the Accounting standards and system**

The Board of General Directors ensure to follow all the requirements of the current Vietnamese Accounting standards and Vietnamese Enterprise Accounting system in preparing the interim consolidated financial statements.

**IV. ACCOUNTING POLICIES**

**1. Consolidation base**

**Subsidiaries**

Subsidiary is an entity controlled by the Parent Company. Control exists when the Parent Company has the power to govern the financial and operating policies of an entity to obtain benefits from this activity. The financial statements of the Subsidiaries are consolidated in the consolidated financial statements from control start date to control end date.

The financial statements of the Subsidiary must be prepared in the same fiscal year as the Company, applying accounting policies that are consistent with the accounting policies of the Parent Company. When necessary, adjustments will be made to ensure that the applied accounting policies are consistent with the Company's accounting policies.

**Transactions excluded on consolidation**

Internal balances and all income and expenses arising from internal transactions are eliminated when preparing the consolidated financial statements. Unrealized gains arising from internal transactions in the value of assets (such as inventories, fixed assets, etc.) must be eliminated in full. Unrealized losses

arising from insider transactions are eliminated unless cost cannot be recovered. Unrealized gains arising from internal transactions with investees accounted for using the equity method are deducted from the investment in relation to the group's benefit in the investees.

**2. Basis of preparation financial statements**

The interim Consolidated financial statements are prepared and presented by Vietnam Dong (VND), at the original price, in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and related regulations.

**3. Estimates**

The preparation of interim consolidated financial statements in conformity with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and other Accounting regulations of Vietnam requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the interim consolidated financial statements and the reported amounts of revenues and expenses during the operation period. Actual business results may differ from estimates or assumptions.

**4. Cash and cash equivalents**

**Cash:** Comprises cash on hand, cash in transit and demand deposits.

**Cash equivalents:** Are short-term investments (for a period not exceeding 3 months) that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

**5. Trade receivables and other receivable**

Receivable is the customer receivables, advance to supplier or receivable from other objects. Receivables are stated at book value minus the provision for doubtful debts when preparing the Financial statements, and are classified:

- Collection terms less than one (01) year at the time of the report are classified as short-term assets;
- Collection terms more than one (01) year at the time of the report are classified as long-term assets.

Provision for doubtful debts represents the expected loss of receivables that may not be paid on time or may not be paid by customers at the time of preparation of the interim consolidated financial statements.

**6. Inventories**

**Principles of inventory evaluation**

Inventories are stated at original cost. The cost of inventories should comprise costs of purchase, costs of processing and other directly related costs incurred in bringing the inventories to their present location and condition.

Where the net realizable value is lower than cost, inventories should be measured at the net realizable value.

Net realizable values are the estimated selling prices of inventories less the estimated expenses on product completion and the estimated expenses necessary for product consumption.

**Method of determining closing balance of inventories:** Weighted average method.

**Method of accounting for inventories:** Regular declaration

**Provision for devaluation of inventories:** Provision for devaluation of inventories is made at the end of the period as the difference between the original cost of inventories greater than their net realizable value.

**7. Tangible fixed asset recognition and depreciation**

**Tangible fixed asset recognition**

Tangible fixed assets are stated at cost less accumulated depreciation. Cost of a tangible fixed asset is the amount of all expenses paid by the Company to acquire an asset at the time the asset is put into operation for its intended use.

The costs incurred after the initial recognition is only recorded an increase in the price of the fixed asset if these cost are sure to increase the economic benefits in the due to the use of that property. These costs do not satisfy the above conditions are recognized as an expense in the year.

When a fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain/(loss) arisen are posted into the income or the expenses during the period.

**Depreciation method of tangible fixed assets:** Tangible fixed assets are depreciated according to the straight line method based on the estimated useful time as follows:

<u>Type of assets</u>	<u>Years</u>
Buildings, structures	25 - 50
Machines and equipment	03 - 14
Means of transportations	04 - 08
Equipment and management tools	03 - 08

**8. Finance lease fixed assets**

Leases asset is classified as finance lease if mostly the risks and rewards associated with ownership of the asset are with the lessee. Finance lease fixed assets are stated at cost less accumulated depreciation. The cost of a finance lease fixed asset is the lower of the fair value of the leased asset at the beginning of the lease agreement and the present value of the minimum lease payments. The discount rate used to calculate the present value of the minimum lease payment for the lease agreement is the interest rate implied in the lease agreement or the rate stated in the agreement. In case it is not possible to determine the implicit interest rate in the lease agreement, use the loan interest rate at the beginning of the lease.

Finance lease fixed asset are depreciated on a straight-line basis over their estimated useful time. In the unlikely event that the Company will acquire title to the assets at the end of the lease time, the fixed assets will be depreciated over the shorter of the lease time and the estimated useful time.

Depreciation years of finance lease fixed asset are as follows:

<u>Type of assets</u>	<u>Years</u>
Machines and equipment	07 - 15
Means of transportations	08

**9. Intangible fixed assets**

**Land use rights**

Land use rights are all actual expenses spent by the Company directly related to the land to be used, including: money spent to acquire land use rights, expenses for compensation and site clearance, ground leveling, registration fees... Land use rights with indefinite are not depreciated.

Land use rights are the land rent that the Company pays once for many years and are granted a Land Use Right Certificate. The leased land use rights are depreciated over the land lease term (from 32 to 44 years).

**Computer software**

Computer software is all expenses that the Company has spent up to the time of putting the software into use. Computer software is depreciated from 05 to 08 years.

Investments held to maturity are recognized beginning on the date of purchase and are initially measured at the purchase price and expenses related to the investments purchase. Interest income from investments held to maturity after the purchase date is recognized in the income statement on an accrual basis. Interest income earned before the holding company is deducted from the original cost at the time of purchase.

Investments held to maturity are determined according to the cost less provision for bad investments.

Provisions for investments held to maturity are made in according to current accounting regulations.

**Loans**

Loans are determined at costs less provisions for bad debts. provisions for bad debts of loans are established based on the expected level of loss that may occur.

**Investments in other entities' equity instruments**

Investments in other entities' equity instruments include equity instrument investments but the Company does not have control, co-control or significant influence over the investments.

Investments in equity instruments of other entities are initially recognized at cost, which includes the purchase price or capital contribution plus costs directly related to the investment activities. Dividends and profits of periods after the investment is purchased are recorded as revenue. Dividends received in shares are only tracked by the number of additional shares, the value of shares received is not recorded/ recorded at par value.

**12. Borrowing costs**

Borrowing costs are recognized as an expense during the period. Where borrowing costs are directly related to the investment in construction or production of unfinished assets that require a sufficiently long period (more than 12 months), before they can be put into use for the predetermined purpose or sold. This borrowing cost is capitalized.

For general loans which are used for investment in construction or production of unfinished assets, the capitalized borrowing cost is determined to the capitalization rate to weighted average accumulated cost for the investment in capital construction or production of that asset. The capitalization rate is calculated using the weighted average interest rate on outstanding loans for the period, excluding separate loans for the purpose of forming a specific asset.

**13. Prepaid expense allocation method**

Prepaid expenses that are only related to the current accounting period are recorded in the production and business expenses of the period.

The calculation and allocation of long-term prepaid expenses into production and business expenses of each accounting period is based on the nature and level of each type of expense to select a reasonable allocation method and criteria.

**18. Corporate income taxes (CIT)**

The company is responsible to pay corporate income tax at the rate of 20% on taxable income.

The company determines income from seafood processing activities to pay corporate income tax at the tax rate of 15% according to the provisions of Circular 96/2015/TT-BTC dated June 22, 2015 of the Ministry of Finance. Income from other applicable activities is subject to pay corporate income tax at the tax rate of 20%.

Corporate income tax includes current income tax and deferred income tax.

Current income tax is calculated based on taxable income and tax rate for the period. Taxable income is different from accounting profit presented on the Income Statement due to adjustments to non-taxable income or non-deductible expenses.

Deferred income tax is determined on temporary differences between the book values and the tax base of assets and liabilities for financial reporting purposes. Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized only when it is probable that taxable profits will be available in the future against which these deductible temporary differences can be used.

Book values of deferred corporate income tax assets are considered at the balance sheet dates and will be reduced to the rates that ensure enough taxable income against which the benefits from a part of or all of the deferred income tax can be used.

Property tax deferred and deferred income tax payable are determined according to the tax rates expected to apply to the year the property was recovered or liabilities are paid, based on the tax law in effect at the end of the accounting period.

The tax reports of the Company will be inspected by the Tax department. Since the different about application of the laws and regulations on tax can be interpreted by many ways; therefore, the tax amounts presented on the financial statements can be changed in accordance with the Tax Department's final decision.
