At the balance sheet date, monetary items denominated in foreign currency that are classified as assets are revaluated using the buying exchange rate and monetary items denominated in foreign currency that are classified as liabilities are revaluated using the selling exchange rate of the commercial bank where the Company regularly trades. Foreign currency deposits in banks are revaluated using the buying exchange rate of the bank where the Company opens foreign currency accounts.

Exchange rate differences are realized in accordance with Vietnamese Accounting Standard No. 10 "The Effects of Changes in Foreign Exchange Rates".
