NOTES TO THE SEPARATE FINANCIAL STATEMENTS

(For the year ended on June 30, 2025)

1. GENERAL INFORMATION

Structure of ownership

Vinacomin - Minerals Holding Corporation, formerly known as Vietnam National Minerals Corporation, is a State-owned Corporation, established under Decision No. 1118/QD-TCCBDT dated October 27, 1995 of the Ministry of Heavy Industry (currently the Ministry of Industry and Trade).

In 2005, Vietnam National Coal and Mineral Industries Holding Corporation Limited (Vinacomin) was established under Decision No. 345/2005/QD-TTg dated December 26, 2005, by the Prime Minister, based on the merger of the Vietnam Coal Group and the Vietnam Minerals Holding Corporation and operates according to the Charter approved by the Prime Minister in Decision No. 228/2006/QD-TTg dated October 11, 2006. Accordingly, the Vietnam Minerals Holding Corporation was transformed into Vinacomin Minerals Holding Corporation and became a subsidiary of the Vietnam National Coal and Mineral Industries Holding Corporation Limited.

In 2006, Vinacomin Minerals Holding Corporation transitioned to operate under the parent-subsidiary model according to Decision No. 12/2006/QD-BCN dated April 27, 2006, by the Ministry of Industry (now the Ministry of Industry and Trade), and operates under the State-Owned Enterprise Business Registration Certificate No. 0106000168, with the third amendment registered on May 3, 2007, and the Corporation's charter capital being VND 719,749,730,244.

In 2010, the Corporation changed its name to Vinacomin Minerals Holding Corporation - One Member Company Limited, with the abbreviated name Vinacomin Minerals Holding Corporation and it operates under Business Registration Certificate No. 0100103087, initially issued by the Hanoi Department of Planning and Investment on July 1, 2010, with the fourth amendment on August 21, 2012, and a charter capital of VND 1,350,000,000,000.

In 2015, the Corporation officially transitioned from a state-owned enterprise to a joint-stock company, now known as Vinacomin - Minerals Holding Corporation, and operates under Business Registration Certificate No. 0100103807, with the eighth amendment on April 28, 2021.

The Corporation's head office is located at 193 Nguyen Huy Tuong, Thanh Xuan Trung Ward, Thanh Xuan District, Ha Noi City, Vietnam.

The charter capital of the Corporation, according to Business Registration Certificate No. 0100103807, amended for the 9th time on May 7, 2024, is VND 2,000,000,000,000 (In words: Two trillion Vietnam dongs (only)).

The Corporation's shares are listed on the UPCOM with the stock trading code KSV on July 28, 2016.

On December 20, 2022, the Hanoi Stock Exchange issued Decision No. 856/QD-SGDHN regarding the approval for the listing of VIMICO's shares.

On December 28, 2022, the Hanoi Stock Exchange issued Decision No. 872/QD-SGDHN regarding the cancellation of the registration for trading VIMICO's shares on the UPCOM market, as they had been approved for listing on the Hanoi Stock Exchange. Accordingly, the last trading day on the UPCOM system was January 16, 2023.

Business Field

Synthesize many business areas.

Business line and principal activities

The main activities of the Corporation are:

Surveying, exploring, and investigating geological resources of minerals;
Mining of minerals, non-ferrous metals (tin, lead, zinc, copper, aluminum), ferrous metals (iron, manganese, chromium, titanium), non-metallic minerals, rare minerals (rare earth elements, gold, silver, platinum, gemstones), and materials used in jewelry such as pearls and coral; selecting, smelting, processing all kinds of minerals; manufacturing jewelry, artistic products, and industrial goods from minerals and metals;

Research and application of technology in the field of exploration, gem metallurgy, gold, and pearl jewelry manufacturing;

Training experts in gemology, technicians in the processing of precious stones, gold, pearls, and jewelry;

Import-export of minerals, processed products from minerals, gemstones, gold, pearl jewelry, and materials and equipment for the mining and processing of minerals, gemstones, gold, and jewelry;

Construction of mining-industrial projects and civil works;

Investment and construction consultancy in mining and mineral processing;

Hospitality services, office rental, and transportation services;

Transportation business of other goods, transportation of goods by train, car and inland waterway;

Business of domestic and international travel services and tourist services (excluding business of karaoke rooms, discotheques, bars);

Container shipping agent;

Import-export of chemicals (excluding state-prohibited chemicals), animal feed and feed additives, fertilizers, construction materials, water filtration powder, beer, alcohol, rubber, and other products derived from rubber.

Other business activities are registered and added according to legal regulations.

2. APPLICABLE ACCOUNTING POLICIES AND ACCOUNTING STANDARDS

2.1. Accounting period and currency used in accounting

The accounting period starts on January 01 and ends on December 31 of the calendar year.

The accounting currency is Vietnamese Dong (VND).

2.2. Applicable accounting policies

Applicable accounting policies

The Corporation applies Vietnamese Accounting Policies for Enterprises issued with Circular No.200/2014/TT-BTC dated December 22, 2014 and Circular No. 53/2016/TT-BTC dated March 21, 2016 amending some clauses of Circular No. 200/2014/TT- BTC dated December 22, 2014 by the Ministry of Finance guiding the corporate accounting system.

2.3. Changes in accounting policies and disclosures

2.4. Basis of preparing separate financial statements

The parent company's financial statements are prepared based on the consolidation of the financial statements of VIMICO's branches.

The financial statements of the branches are applied accounting policies consistent with those of the Corporation. When necessary, the financial statements of the branches are adjusted to ensure consistency with the accounting policies applied by the Corporation and its subsidiaries.

Balances, income, and major expenses, including unrealized gains or losses arising from internal transactions, are eliminated on consolidation of the financial statements.

2.5. Financial Instruments

Initial Recognition

Financial Assets

At the time of initial recognition, financial assets are recorded at cost plus any directly attributable transaction costs incurred in the issuance or acquisition of the financial assets. Financial assets include cash, deposits with credit institutions, receivables from customers and other receivables, and other financial assets.

Financial Liabilities

Financial liabilities are initially recognized at cost plus any directly attributable transaction costs related to the issuance of the financial liabilities. The Corporation's financial liabilities include accounts payable to suppliers, other payables, loans, and accrued expenses.

Subsequent Measurement

Currently, there are no regulations regarding the revaluation of financial instruments.

2.6. Foreign Currency Transactions

Foreign currency transactions during the fiscal year are converted into Vietnamese dong at the actual exchange rate on the transaction date. The actual exchange rate for the transaction is determined based on the following principles:

For foreign currency purchases and sales: The exchange rate stipulated in the foreign exchange purchase and sale contract between the Company and the commercial bank.

For capital contributions or received capital contributions: The exchange rate for foreign currency purchases at the bank where the Company holds an account to receive capital from investors on the date of contribution.

For receivables recognition: The purchase exchange rate of the commercial bank where the Company designates the customer to make payment at the time the transaction occurs.

For payables recognition: The selling exchange rate of the commercial bank where the Company expects to conduct the transaction at the time it occurs.

For asset purchases or immediate payments in foreign currency: The purchase exchange rate of the commercial bank where the Company makes the payment.

The actual exchange rate when revaluating foreign currency denominated monetary items at the time of preparing the consolidated financial statements is determined as follows:

- **For assets:** The purchase exchange rate of the commercial bank with which the Company frequently transacts.
- **For foreign currency deposits:** The purchase exchange rate of the bank where the Company holds its foreign currency account.
- **For payables:** The selling exchange rate of the commercial bank with which the Company frequently transacts.

All exchange rate differences arising during the year and differences due to the revaluation of foreign currency denominated monetary item balances at the end of the year are recognized in the business results of the fiscal year.

2.7. Cash and cash equivalents

Cash includes cash on hand, demand deposits with, and monetary gold used for value storage purposes, excluding gold classified as inventory used as raw material for manufacturing products or goods for sale.

Cash equivalents are short-term investments with a maturity of no more than 3 months from the investment date, highly liquid, easily convertible into a known amount of cash, and with minimal risk of changes in value during conversion to cash.

2.8. Financial investments

Held-to-maturity investments include: term deposits with banks (including promissory notes and certificates of deposit), bonds, preferred shares with mandatory buyback by the issuer at a certain future date, loans, and other investments held to maturity with the purpose of earning periodic interest income.

Investments in joint ventures and associates: are initially recorded in the accounting books at cost. After initial recognition, the value of investments presented in the Consolidated Financial Statements is determined at cost less provision for impairment (if any).

Investments in equity instruments of other entities include: investments in equity instruments of other entities that do not have control, joint control or significant influence over the investee. The initial book value of these investments is determined at cost. After initial recognition, the value of these investments is determined at cost less provision for impairment (if any).

Dividends received in the form of shares are only recorded as the number of shares received, without recognizing an increase in the investment value or financial income.

2.9. Accounts receivable

Receivables are monitored in detail by maturity, debtor, type of foreign currency receivable, and other factors as per the Company's management requirements.

2.10. Inventory

Inventories are initially recognized at cost, which includes purchase costs, processing costs and other directly related costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, if the net realizable value of the inventory is lower than its cost, the inventory is recognized at net realizable value.

Inventory value is determined by the weighted average cost method.

Inventories are accounted for using the perpetual inventory method.

Method for determining the value of work-in-progress at the end of the period:

Work in progress costs are aggregated based on actual costs incurred for each type of unfinished product, and determined based on direct material costs and direct labor costs.

2.11. Fixed assets, Financial leased fixed assets

Tangible fixed assets and intangible fixed assets are initially recognized at cost. During their use, tangible fixed assets and intangible fixed assets are recognized at cost, accumulated depreciation and the carrying amount.

Finance lease assets are initially recognized at cost, which is the fair value or the present value of the minimum lease payments (if the fair value is higher than the present value of the minimum lease payments) plus any directly attributable initial costs related to the finance lease transaction (excluding VAT). During their use, finance lease assets are recognized at cost, accumulated depreciation, and the carrying amount. Depreciation of finance lease assets is calculated based on the lease term as per the lease agreement and is charged to production and business expenses to ensure full recovery of the capital.

The depreciation rate is determined by the straight-line method, based on the estimated useful life of the asset, in accordance with the depreciation rate prescribed in Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance on the management, use and depreciation of fixed assets and Circular No. 147/2016/TT-BTC dated October 13, 2016 of the Ministry of Finance on amending and supplementing a number of articles of Circular No. 45/2013/TT-BTC.

2.12. Prepayment

Expenses that have been incurred in relation to the results of business operations over multiple accounting periods are recorded as prepaid expenses and allocated gradually to the business results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses into production and business expenses for each accounting period is based on the nature and extent of each type of expense in order to choose an appropriate allocation method and basis. Prepaid expenses are gradually allocated into production and business expenses using the straight-line method.

Business advantages arising from the privatization of state-owned enterprises are allocated gradually over a period not exceeding 10 years.

2.13. Accounts Payable

Payables are monitored by maturity, payee, type of foreign currency payable, and other factors based on the Company's management requirements.

2.14. Borrowings and financial lease liabilities

The value of the finance lease liability is the total amount payable calculated by the present value of the minimum lease payments or the fair value of the leased asset.

Borrowings and financial lease liabilities are monitored by each lender, each borrowing agreement (loan agreement) and the repayment term of the loans and financial lease liabilities. In case of loans and liabilities in foreign currency, detailed tracking is performed according to the foreign currency.

2.15. Borrowing costs

Borrowing costs are recognized as production and business expenses in the year when incurred, except for borrowing costs directly related to the investment in construction or production of work-in-progress, which are capitalized into the value of the asset when the conditions stipulated in Vietnamese Accounting Standard No. 16 "Borrowing Costs" are met. Additionally, for loans specifically for the construction of fixed assets or investment properties, interest is capitalized even if the construction period is less than 12 months.

For general borrowings, which are used for the investment in the construction or production of work-in-progress, the amount of borrowing costs eligible for capitalization in each accounting period is determined based on the capitalization ratio relative to the weighted average cost of the borrowing incurred for the construction or production of that asset. The capitalization ratio is calculated based on the weighted average interest rate of loans that remain unpaid during the year, excluding any separate loans intended specifically for the construction of a particular work-in-progress asset.

2.16. Accrued expenses

Payables for goods and services received from sellers or provided to buyers during the reporting period but not yet paid, as well as other payables such as: vacation wages, costs during seasonal production shutdown, interest on loans payable, etc. are recognized as production and business expenses for the reporting period.

The recognition of accrued expenses into production and business expenses for the year is carried out based on the matching principle between revenues and expenses incurred during the year. The accrued expenses will be settled based on the actual costs incurred. The difference between the accrued amount and the actual expense is reversed.

2.17. Provisions for payables

Provisions are only recognized when the following conditions are satisfied:

The Corporation has a present obligation (legal or constructive) as a result of a past event;

A reduction in future economic benefits is likely to result in the requirement to settle the obligation;

A reliable estimate of the amount of the obligation can be made.

The value recognized for a provision is the best estimate of the amount required to settle the present obligation at the end of the financial year.

Only expenses related to the provision originally established can be offset by the provision.

Provisions are recognized as production and business expenses for the financial year. Any difference between the provision recognized in the previous year that was not fully utilized and the provision recognized in the current year is reversed and deducted from production and

business expenses for the year, except for the difference related to provisions for construction warranty which is reversed into other income for the year.

2.18. Equity

Owner's equity is recognized based on the actual capital contributed by the owner.

Other equity capital reflects the business capital formed from the results of business operations, or from donations, gifts, grants, or asset revaluations (if permitted to increase or decrease the owner's investment).

Revaluation surplus is reflected in cases such as: when there is a state decision on asset revaluation, when a state-owned enterprise is privatized, and other cases as stipulated by law.

Retained earnings reflect the business results (profits or losses) after corporate income tax and the distribution or handling of profits or losses by the Company. Profit distribution is carried out when the Company has retained earnings that do not exceed the retained earnings in the consolidated financial statements, after eliminating the impact of profits from bargain purchase transactions. In the case of dividend payments, if profits distributed to shareholders exceed the retained earnings, the excess is treated as a reduction in owner's equity. Dividends payable to shareholders are recognized as liabilities on the Company's Balance Sheet after the Board of Directors approves the dividend distribution.

2.19. Revenue

Revenue from Sale of Goods

Revenue from the sale of goods is recognized when all of the following conditions are met:

The significant risks and rewards of ownership of the goods have been transferred to the buyer;

The Company no longer retains control over the goods as if it were the owner or has the ability to control the goods;

Revenue can be reliably measured;

The Company has received or will receive economic benefits from the sale transaction;

The costs incurred for the transaction can be reliably measured.

Revenue from Providing Services

Revenue from providing services is recognized when the outcome of the transaction can be reliably determined. If the service provision spans multiple years, revenue is recognized in each year based on the portion of work completed as of the balance sheet date for that year. The outcome of the service transaction is determined when all of the following conditions are met:

Revenue can be reliably measured;

Economic benefits from the service transaction are likely to be received;

The portion of work completed as of the balance sheet date can be determined;

The costs incurred for the transaction and the costs to complete the service provision can be determined.

The portion of the service work completed is determined using the method of evaluating the work performed.

Revenue from Financial Activities

Revenue from interest, royalties, dividends, profits received, and other financial revenues is recognized when both of the following conditions are met:

Economic benefits from the transaction are likely to be received;

The revenue can be reliably measured.

Dividends and profits received are recognized when the Company has the right to receive dividends or profits from its investments.

2.20. Financial costs

Expenses recognized as financial expenses include:

Expenses or losses related to financial investment activities;
Borrowing costs;
Losses from the liquidation or disposal of short-term securities, transaction costs from the sale of securities;

Provision for impairment of trading securities, provision for loss of investments in other entities, losses arising from the sale of foreign currency, foreign exchange losses, etc.

These expenses are recognized in total as incurred during the year and are not offset against financial income.

2.21. Corporate income tax

a) Current Corporate Income Tax Expense and Deferred Corporate Income Tax Expense

Current corporate income tax expense is determined based on taxable income for the year and the applicable corporate income tax rate for the current fiscal year.

Deferred corporate income tax expense is determined based on the temporary differences that are deductible, taxable temporary differences, and the corporate income tax rate.

Current corporate income tax expense is not offset against deferred corporate income tax expense.

b) Tax Incentives

According to the Investment Incentive Certificate No. 554/BKH/PTDN dated January 26, 2005, issued by the Minister of Planning and Investment to Vietnam Minerals Corporation: The Corporation is entitled to corporate income tax incentives as specified in Decree No. 164/2003/ND-CP dated December 22, 2003. Under this decree, the project is subject to a tax rate of 20%, is exempt from tax for the first three years from the start of taxable income, and is eligible for a 50% tax reduction for the following seven years, along with exemption from land use fees for 15 years.

2.22. Related Parties

Parties are considered related if one party has the ability to control or exert significant influence over the other party in making decisions about financial policies and operations. The related parties of the Company include:

Entities that directly or indirectly, through one or more intermediaries, have control over the Company, are controlled by the Company, or are under common control with the Company, including the parent company, subsidiaries, and affiliates;

Individuals who directly or indirectly hold voting rights in the Company that significantly influence the Company, key management personnel of the Company, and their close family members;

Entities in which the individuals mentioned above directly or indirectly hold a significant portion of the voting rights or exert significant influence over the Company.

In reviewing each related party relationship for the preparation and presentation of consolidated financial statements, the Company focuses on the nature of the relationship rather than its legal form.
