#### Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

### 2.3. Basis for the preparation of Interim Consolidated Financial

Consolidated Financial Statements are prepared based on consolidating Separate Financial Statements of the Company and Financial Statements of its subsidiaries under its control for the period from 01/01/2025 to 30/06/2025.

Consistent accounting policies are applied in Financial Statements of subsidiaries and the Company. If necessary, adjustments are made to the Financial Statements of subsidiaries to ensure the consistency of application of accounting policies among the Company and its subsidiaries.

Balance, main incomes and expenses, including unrealized profits from intra-group transactions are eliminated in full from Consolidated financial statements.

Non – controlling interests represents the portion of profit or loss and net assets of subsidiaries not held by the Company.

## **2.4. Financial Instruments**

### *Initial recognition*

#### Financial assets

Financial assets of the Company include cash, cash equivalents, trade receivables, other receivables, lending loans, long-term and short-term investments. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

#### Financial liabilities

Financial liabilities of the Company include borrowings, trade payables, other payables and accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expenses *directly related to the issuance of those liabilities*.

### *Subsequent measurement after initial recognition*

There are currently no regulations on the revaluation of financial instruments after initial recognition.

## **2.5. Cash and cash equivalents**

Cash comprises cash on hand, demand.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

## **2.6. Business combination and goodwill**

All business combinations shall be accounted for by applying the purchase method. The cost of a business combination includes the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the acquirer, in exchange for control of the acquiree plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities in business combination are measured at their fair values at the acquisition date.

## **2.7. Financial investments**

*Trading securities* are initially recognized at original cost which includes purchase prices plus any directly attributable transaction costs such as brokerage, transaction fee, cost of information provision, taxes, bank's fees and charges. After initial recognition, trading securities are measured at original cost less provision for diminution in value of trading securities. Upon liquidation or transfer, cost of trading securities is determined using first in first out method or weighted average method.

*Investments held to maturity* comprise term deposits held to maturity to earn profits periodically.

*Investments in associates* are accounted for using the equity method in the consolidated financial statements. Under the equity method, the investment is initially recorded on the consolidated balance sheet at cost and adjusted thereafter for post-acquisition changes in the Company's share of the associate's net assets. Goodwill arising from investment in associates is reflected in the carrying amount of the investment. The Company does not amortize this goodwill but periodically assesses whether there is any impairment in value.

The investor's share in the associate's post-acquisition profits or losses is reflected in the consolidated income statement, and the investor's share in post-acquisition movements in the associate's reserves is recognized in reserves. Cumulative post-acquisition movements are adjusted

against the carrying amount of the investment. Dividends received from associates are deducted from the investment in associates.

The financial statements of associates are prepared for the same reporting period as the Company's consolidated financial statements and use consistent accounting policies. Appropriate adjustments are made to ensure consistency with the Company's accounting policies where necessary.

Investments in other entities include: investments in equity instruments of other entities without control, joint control, or significant influence over the investee. The initial carrying amount of these investments is determined at cost. After initial recognition, these investments are measured at cost less provision for diminution in value.

Provisions for diminution in value of investments are made at the end of the period as follows:

- For trading securities investments: based on the difference between the book value and market value at the time of provision.
- For long-term investments (not classified as trading securities) without significant influence over the investee: if the investment is in listed shares or fair value can be reliably determined, provisioning is based on market value; if fair value cannot be determined, provisioning is based on the investee's financial statements at the time of provision.
- For held-to-maturity investments: based on recovery capability to make provision for doubtful debts according to legal regulations.

## **2.8. Receivables**

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. The receivables shall be classified into short-term receivables or long-term receivables on the interim consolidated financial statements according to their remaining terms at the reporting date.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

## **2.9. Inventories**

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

The cost of inventory is calculated using weighted average method specific identification.

Provision for devaluation of inventories made at the end of the period is based on the excess of original cost of inventory over their net realizable value.

## **2.10. Fixed assets, Finance lease fixed assets**

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- Buildings, structures	07-30 years
- Other Machinery, equipment	10-15 years
- Vehicles, Transportation equipment	06-10 years
- Office equipment and furniture	05-10 years
- Other fixed assets	05 years
- Management software	03-05 years

#### **2.11. Construction in progress**

An asset which is on constructing for production, for leasing or management, or any other purposes, is recognised in historical cost. Attributable cost includes the cost for experts and with assets meet the recognition criteria where applicable, borrowing cost is recognised suitable with the Company's accounting policies.

#### **2.12. Prepaid expenses**

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria.

#### **2.13. Payables**

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company.

#### **2.14. Accrued expenses**

Accrued expenses include payables to goods or services received from the suppliers or provided for the customers during the reporting period, but the payments for such goods or services have not been made and other payables such as interest expenses, etc. which are recorded as operating expenses of the reporting period.

The recording of accrued expenses as operating expenses during the period shall be carried out under the matching principle between revenues and expenses during the period. Accrued expenses are settled with actual expenses incurred. The difference between accrued and actual expenses is reverted.

#### **2.15. Owner's equity**

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

Other capital is the operating capital formed from the operating results or from gifts, presents, financing, assets revaluation (if these items are allowed to be recorded as a decrease or increase in the owner's equity).

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profit appropriation or loss handling of the Company. The distribution of net profits is

made when the net profit of the company does not exceed the net profit presented on Consolidated Financial Statements after eliminating the profits from cheap purchase. Net profit can be distributed to investors based on capital contribution rate after being approved by General Meeting of Shareholders and after being appropriated to funds in accordance with the Company's Articles of Incorporation and Vietnamese statutory requirements.

The Company's retained earnings is distributed to other funds according to recommendation of the Board of Management and approval of shareholders at annual General Meeting of Shareholders:

- Development and investment funds:
- The fund is reserved for the purpose of business expansion or in depth investment.
- Bonus and welfare fund and bonus for the Board of Directors:
- The fund is reserved for the purpose of bonus, material incentives, common benefit and increasing welfare for employees and presented as a liability on the Consolidated Statement of Financial Position.

Dividends to be paid to shareholders are recognised as a payable in Statement of Financial position after the announcement of dividend payment from the Board of Management and announcement of cut-off date for dividend payment of Vietnam Securities Depository Center.

## **2.16. Revenue**

### *Sales of goods*

Revenue from sale of goods shall be recognised when all of the following conditions have been satisfied:

- Significant risks and rewards associated with the ownership of the goods have been transferred to the buyer;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The cost incurred or to be incurred in respect of the transaction can be measured reliably.

### *Rendering of services*

Revenue from rendering of services shall be recognised when all the following conditions have been satisfied:

- The amount of the revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The stage of the completion of the transaction at the end of the reporting period can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

### *Financial income*

Financial incomes include income from assets yielding interest, royalties, dividends and other financial gains by the company shall be recognised when the two conditions are satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Company;  
and
- The amount of the revenue can be measured reliably.

Dividend income shall be recognised when the Company's right to receive dividend is established.

Bonus shares or stock dividends shall not be recognized as income when the right to receive bonus shares or stock dividend is established. Instead, the number of bonus shares or stock dividends will be presented on the related Note to the Separate Financial Statements.

#### **2.17. Revenue deductions**

Revenue deductions from sales of goods and rendering of services arising in the period include:  
Trade discounts

Trade discount incurred in the same period of sale of goods and rendering of services are recorded as a decrease in revenue in the incurring period. In case goods and services are sold in the previous periods, but until the next period they are incurred as deductible items, the Company records the decrease in revenue under the following principles: If it is incurred prior to the issuance of Financial Statements, it is then recorded as a decrease in revenue on the Financial Statements of the reporting period (the previous period); and if it is incurred after the issuance of Financial Statements, it is recorded as a decrease in revenue of incurring period (the next period).

#### **2.18. Cost of goods sold**

The recognition of cost of goods sold is matched against the revenue in the period and complies with the prudence principle. Cases of loss of materials and goods exceeded the norm, abnormal expenses and losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the period.

#### **2.19. Financial expenses**

Items recorded into financial expenses comprise:

- Expenses or losses relating to financial investment activities;
- Borrowing costs;
- Losses from the disposal and transfer of short-term securities, transaction cost of selling securities;
- Provision for diminution in value of trading securities price; provision for losses from investment in other entities, losses from sale of foreign currency, exchange loss, etc.

The above items are recorded by the total amount arising in the period without offsetting against financial income.

#### **2.20. Corporate income tax**

##### *Deferred income tax asset*

Deferred income tax asset is recognized for deductible temporary differences and the carrying forward of unused tax losses and unused tax credits.

Deferred income tax asset and Deferred income tax liability are determined based on prevailing corporate income tax.

##### *Current corporate income tax expenses*

Current corporate income tax expenses are determined based on taxable income during the period and current corporate income tax rate.

*Deferred corporate income tax expenses*

Deferred corporate income tax expenses are determined based on deductible temporary differences, the taxable temporary differences and corporate income tax rate.

Current corporate income tax expenses and deferred corporate income tax expenses are not offset against each other.

**2.21. Earnings per share**

Basic earnings per share are calculated by dividing net profit or loss after tax for the year attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund and allowance for Board of Directors) by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share are calculated by dividing the net profit or loss after tax attributable to ordinary shareholders of the Company (after adjusting for the bonus and welfare fund, allowance for Board of Directors and interest on the convertible preference shares) by the weighted average number of ordinary shares that would be issued by conversion of all dilutive potential ordinary shares into ordinary shares.

**2.22. Related Parties**

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:

- Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and associates;
- Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel including directors and employees of the Company, the close family members of these individuals;
- Enterprises that the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence on these enterprises.

In considering the relationship of related parties to serve for the preparation and presentation of Interim Consolidated Financial Statements, the Company should consider the nature of the relationship rather than the legal form of the relationship.

**2.33. Segment information**

A segment is a distinguishable component of the Company that is engaged in providing an individual or group of related products or services (business segment), or providing products or services within a particular economic environment (geographical segment). Each segment is subject to risks and returns that are different from other ones.

Segment information should be prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company in order to help users of financial statements better understand and make more informed judgements about the Company as a whole.
