The Company applies Corporate Accounting System issued under the Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance, the Circular No. 53/2016/TT-BTC dated 21 March 2016 issued by Ministry of Finance amending and supplementing some articles of the Circular No. 200/2014/TT-BTC and the Circular No. 202/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance guiding the preparation and presentation of Consolidated Financial Statements.

#### *Declaration of compliance with Accounting Standards and Accounting System*

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

### 2.3 . Basis for preparation of consolidated financial statements

Consolidated Financial Statements are prepared based on consolidating Separate Financial Statements of the Company and Financial Statements of its subsidiaries under its control prepared for the accounting period from January 1, 2024 to June 30, 2025. Control right is achieved when the company has power to govern the financial and operating policies of invested companies to obtain benefits from their activities.

Consistent accounting policies are applied in Financial Statements of subsidiaries and the Company. If necessary, adjustments are made to the Financial Statements of subsidiaries to ensure the consistency of application of accounting policies among the Company and its subsidiaries.

Balance, main incomes and expenses, including unrealized profits from intra-group transactions are eliminated in full from Consolidated financial statements.

Non – controlling interests

Non – controlling interests represents the portion of profit or loss and net assets of subsidiaries not held by the Company.

### 2.4 . Accounting estimates

The preparation of the separate financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and legal regulations related to the preparation and presentation of the separate financial statements requires the Board of Directors to make estimates and assumptions that affect the figures of liabilities, assets and the presentation of contingent liabilities and assets at the end of the fiscal year as well as the figures of revenues and expenses during the fiscal year.

The estimates and assumptions that have a material effect on the separate financial statements include:

- Provision for bad receivables;
- Provision for devaluation of inventories;
- Estimate useful life of fixed assets;
- Estimate prepaid expenses
- Classification and provision for financial investments;
- Estimate percentage of completion of revenue;
- Estimate corporate income tax.

Estimates and assumptions are regularly evaluated based on past experience and other factors, including future assumptions that have a material impact on the Company's separate financial statements and are considered reasonable by the Company's Board of Directors.

### 2.5 . Financial Instruments

#### *Initial recognition*

#### Financial assets

Financial assets of the Company include cash, cash equivalents, trade receivables, other receivables, lending loans, long-term and short-term investments. At initial recognition, financial assets are identified by purchasing price/issuing cost plus other expenses directly related to the purchase and issuance of those assets.

#### Financial liabilities

Financial liabilities of the Company include borrowings, trade payables, other payables and accrued expenses. At initial recognition, financial liabilities are determined by issuing price plus other expenses directly related to the issuance of those liabilities.

#### *Subsequent measurement after initial recognition*

Financial assets and financial liabilities have not been measured at fair value at the end of the financial year as required by Circular No. 210/2009/TT-BTC and other applicable regulations to present financial statements. disclosures and disclosures for financial instruments, but does not provide equivalent guidance for the assessment and recognition of fair values of financial assets and financial liabilities.

## 2.6 . Foreign currency transactions

The foreign currency transactions during the year are translated into Vietnam Dong using the real exchange rate ruling at the transaction date. Real exchange rates are determined under the following principles:

Real exchange rate when revaluating monetary items denominated in foreign currencies at the reporting date of Consolidated Financial Statements is determined under the following principles:

- For asset accounts, applying the bid rate of the commercial bank where the Company regularly conducts transaction;
- For foreign currency deposited in bank, applying the bid rate of the bank where the Company opens its foreign currency accounts;
- For liability accounts, applying the offer rate of the commercial bank where the Company regularly conducts transaction.

All exchange differences arising from foreign currency transactions in the year and from revaluation of remaining foreign currency monetary items at the end of the year are recorded immediately to operating results of the accounting year.

## 2.7 . Cash and cash equivalents

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term investments with the maturity of not over than 3 months from the date of investment, that are highly liquid and readily convertible into known amount of cash and that are subject to an insignificant risk of conversion into cash.

## 2.8 . Financial investments

*Trading securities* are initially recognized at original cost which includes purchase prices plus any directly attributable transaction costs such as brokerage, transaction fee, cost of information provision, taxes, bank's fees and charges. After initial recognition, trading securities are measured at original cost less provision for diminution in value of trading securities. Upon the liquidation or transfer, cost of trading securities is determined using first in first out method or weighted average method.

*Investments held to maturity* comprise term deposits (including treasury bills and promissory notes), bonds, preference shares which the issuer is required to repurchase at a certain time in the future and loans, etc. held to maturity to earn profits periodically and other held to maturity investments.

*Investments in subsidiaries, joint ventures and associates:* During the year, the buyer determines the date of purchase and the cost of investments and implements accounting procedures in accordance with the Accounting Standards on "Business combination" and "Investments in joint ventures and associates".

In the Consolidated Financial Statements, investments in joint ventures and associates are accounted for using equity method. Under this method, the investments are initially recognised at cost and adjusted thereafter for the post acquisition change in the Group's share in net assets of the associate after acquisition date. Goodwill incurred from the investment in the associates is reflected in the carrying amount of the investment in the associate. The Group will not allocate such goodwill but assess annually to determine whether the goodwill is under impaired loss or not.

For the adjustment of the value of investments in joint ventures and associates from the date of investment to the beginning of the reporting period, the Company shall perform the following:

- For the adjustment to the income statement of the previous periods, the Company makes an adjustment to the undistributed profit after tax according to the adjusted net accumulated amount up to the beginning of the reporting period.
- For the adjustment due to the difference in revaluation of assets and the difference in foreign exchange rates, recorded in the balance sheet of the previous periods, the Company determines the adjustment to the corresponding items on the balance sheet net accrual adjusted accounting.

For the adjustment of the value of investments in joint ventures and associates arising in the year, the Company shall exclude the preferred dividends of other shareholders (if preferred shares are classified as Owner's capital); expected number of deductions for bonus and welfare funds of joint ventures and associates; share of profits related to transactions of joint ventures, associates contributing capital or selling assets to the Company before determining the Company's share in the profit or loss of the joint venture or associated company during the reporting period. The Company then adjusts the value of the investment in proportion to its share in profits and losses of joint ventures and associates and immediately recognizes it in the Consolidated Statement of Comprehensive Income.

Financial Statements of associates are prepared in the same period with the Group's consolidated financial statements and use the consistent accounting policies with the Group's policies. Adjustment shall be made if necessary to ensure the consistence with the Group's accounting policies.

*Investments in equity of other entities* comprise investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

Provision for devaluation of investments is made at the end of the period as follows:

- With regard to investments in trading securities, the provision shall be made on the basis of the excess of original cost of the investments recorded in the accounting book over their market value at the provision date.
- With regard to investments held long-term (other than trading securities) without significant influence on the investee: If the investment is made in listed shares or the fair value of the investment is determined reliably, the provisions shall be made on the basis of the market value of the shares; if the fair value of the investment is not determined at the reporting date, the provision shall be made based on the Financial Statements at the provision date of the investee.
- With regard to investments held to maturity, the provision for doubtful debts shall be made based on the recovery capacity in accordance with statutory regulations.

## **2.9 . Receivables**

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company. The receivables are classified as short-term and long-term in the Consolidated Financial Statements based on the remaining maturity of the receivables at the end of accounting period.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

## **2.10 . Inventories**

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

Net realizable value is estimated based on the selling price of the inventory less the estimated costs of completion and estimated costs to make the sale.

The cost of inventory is calculated by weighted average method.

Inventory is recorded by perpetual method.

Method for valuation of work in process at the end of the year: Work in progress is gathered for each unfinished work or revenue is not recognized, corresponding to the volume of work in progress at the end of the year.

Provision for devaluation of inventories made at the end of the year is based on the excess of original cost of inventory over their net realizable value.

## 2.11 . Fixed assets, Finance lease fixed assets

Fixed assets (tangible and intangible) are initially stated at the historical cost. During the using time, fixed assets (tangible and intangible) are recorded at cost, accumulated depreciation and carrying amount.

### *Value after initial recognition*

The Company's investment property is 23,600 m2 of land in Dao Cam Moc street, Thu Lam Commune, Dong Anh district, Hanoi. In which, the value of the land use right transferred from the partner since 2012 has a term of 20 years from December 7, 1996. From 2017, the Company continues to use this land area in the form of annual land lease payment.

The fair value of the investment property has not been formally assessed and determined as of June 30, 2025. However, based on the lease position and market value of these assets, the Board of General Director believes that the fair value of the investment property is greater than the carrying amount at the balance sheet date finance.
