To the Shareholders and Board of Management Tien Phong Plastic Joint Stock Company

We have reviewed the accompanying consolidated interim financial statements of Tien Phong Plastic Joint Stock Company ("the Company"), which comprise the consolidated balance sheet as at 30 June 2025, the consolidated statements of income and cash flows for the six-month period then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of General Directors on 13 August 2025, as set out on pages 5 to 48.

Management's Responsibility

The Company's Board of General Directors is responsible for the preparation and true and fair presentation of these consolidated interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to interim financial reporting, and for such internal control as the Board of General Directors determines is necessary to enable the preparation of consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on these consolidated interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review engagements 2410 Review of interim financial information performed by the independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial statements do not give a true and fair view, in all material respects, of the consolidated financial position of Tien Phong Plastic Joint Stock Company as at 30 June 2025 and of its consolidated results of operations and its consolidated cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to interim financial reporting.

The consolidated interim financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to interim financial reporting.

(b) Basis of measurement

The consolidated interim financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the indirect method.

(c) Annual accounting period

The annual accounting period of the Company and its subsidiaries is from 1 January to 31 December.

(d) Accounting and presentation currency

The Company's and its subsidiaries' accounting currency is Vietnam Dong ("VND"), which is also the currency used for financial statement presentation purpose.

3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Company and its subsidiaries in the preparation of these consolidated interim financial statements.

The accounting policies that have been adopted by the Company and its subsidiaries in the preparation of these consolidated interim financial statements are consistent with those adopted in the preparation of the latest annual consolidated financial statements.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

*(Issued under Circular No. 202/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(ii) Associates

Associates are those entities in which the Company has significant influence, but not control, over the financial and operating policies. Associates are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated interim financial statements include the Company's share of the profit or loss of the associates, after adjustments to align the accounting policies with those of the Company, from the date that significant influence commences until the date that significant influence ceases. The carrying amount of investments in associates is also adjusted for the alterations in the Company's proportionate interest in the associates arising from changes in the associates' equity that have not been included in the income statement (such as revaluation of fixed assets, or foreign exchange translation differences, etc.).

When the Company's share of losses exceeds its interest in an associate, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Company has an obligation or has made payments on behalf of the associate.

(iii) Transactions eliminated on consolidation

Intra-group transactions, balances and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated interim financial statements. Unrealised gains and losses arising from transactions with associates are eliminated against the investment to the extent of the Company's interest in the associates.

(iv) Business combination

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

(b) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rates and account transfer selling rates, respectively, at the end of the accounting period quoted by the commercial bank where the Company or its subsidiaries most frequently conduct transactions.

All foreign exchange differences are recorded in the consolidated statement of income.

(c) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(d) Investments

(i) *Held-to-maturity investments*

Held-to-maturity investments are those that the Company's or its subsidiaries' Board of General Directors has the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at bank and long-term bonds. These investments are stated at costs less allowance for doubtful debts.

(ii) *Equity investments in other entities*

Equity investments in other entities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value.

Allowance is made for diminution in investment values if the investee has suffered a loss which may cause the Company to lose their invested capital, unless there is evidence that the value of the investment has not been diminished. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(e) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(f) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items less the estimated costs of completion and estimated costs to sell.

The Company and its subsidiaries apply the perpetual method of accounting for inventories.

The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use.
