**Explanation of profit after tax in the third quarter of 2025:**

Profit after tax in Q3/2025 loss: VND 206.27 million due to specific reasons as follows:

- Q3/2025 loss: VND 206.27 million, mainly due to:
  - + During the period, the Company has no revenue from sales and service provision, while still incurring regular fixed operating expenses;
  - + Other expenses increased due to the incurrence of late payment interest expenses for late payment of corporate income tax after finalization;
  - + The cost of auditing financial statements increased due to the issuance of additional English reports.
- In order to overcome and improve revenue, the Company is striving to find investment partners or strategic partnerships to invest in potential industries and transform business models. On the other hand, the Company continues to look for customers who want to buy and liquidate inventory to reduce the loss of inventory value over time.
- Currently, the Company is still making efforts to contact and negotiate with partners to settle debts to stabilize the financial situation and create favorable conditions for the implementation of business plans in the next period.
- Above is the entire explanation of MPT Group Joint Stock Company related to the financial statements of Quarter 3/2025.
