Supervision of road work construction and completion. Supervision of road-bridge traffic work construction and completion. Supervision of construction and completion: Technical infrastructures;
- Other uncategorized professional, scientific and technological activities. Details: Environmental impact assessment documentation;
- Construction of other civil engineering works. Details: Investment in construction and business of power sources, civil, industrial, traffic, irrigation, hydroelectric projects;
- Preparation of surface. Details: Exploration drilling, testing and sampling for measurement of physical and geological indicators;

- Technical testing and analysis. Details: Quality control of works. Mechanical strength testing of concrete, structure, and building materials. Waterproofing injection, reinforcement and treatment of construction work foundation;
- Trading in real estate, land use rights under ownership, use, or lease. Details: Trading in real estate;
- Uncategorized manufacture of other metal products. Details: Fabrication and installation of domestic and industrial electrical equipment (except for mechanical processing, waste recycling, electroplating).

Normal production and business cycle

The Company's normal production and business cycle is carried out for a period of 12 months or less.

Company's structure

Affiliated units which have no legal person status and dependent accounting are as follows:

| Name | Address | Principal activity |
|--|--|---------------------------------|
| Central Branch | 23/10 Street, Tay Cau Dua Residential Area, Tay Nha Trang Ward, Khanh Hoa Province | Consultancy, survey, and design |
| Electricity Survey and Construction Enterprise | No. 32 Ngo Thoi Nhiem Street, Xuan Hoa Ward, Ho Chi Minh City | Consultancy, survey, and design |

2. FINANCIAL YEAR, APPLIED ACCOUNTING STANDARDS AND REGIME

Financial year

The Company's financial year begins on 01 January and ends on 31 December.

Applied accounting regime

The Company applied Vietnamese Accounting Standards, accounting regime for enterprises in accordance with Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016, and circulars guiding the implementation of accounting standards of the Ministry of Finance in the preparation and presentation of combined financial statements.

Declaration of compliance with accounting standard and accounting regime

The Board of General Directors ensures to comply with the requirements of Vietnamese Accounting Standards, accounting regime for enterprises in accordance with Circular No. 200/2014/TT-BTC dated 22 December 2014, Circular No. 53/2016/TT-BTC dated 21 March 2016, and circulars guiding the implementation of accounting standards of the Ministry of Finance in the preparation of combined financial statements.

The accompanying combined financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Disclosure of information comparability in the combined financial statements

The corresponding figures of the prior year are comparable with those of the current year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting convention

The combined financial statements are prepared on an accrual basis (except for information relating to cash flows).

Affiliated units have their own accounting work and dependent accounting. The Company's combined financial statements are prepared based on the combination of financial statements of affiliated units. Revenue and balances between affiliates are eliminated when preparing the combined financial statements.

The accompanying combined financial statements, expressed in Vietnamese Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of combined financial statements.

The significant accounting policies, which have been adopted by the Company in the preparation of these combined financial statements, are as follows:

Estimates

The preparation of combined financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to the preparation and presentation of the combined financial statements requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the Board of General Directors' best knowledge, actual results may differ from those estimates.

Evaluation and recognition at fair value

The Law on Accounting came into effect from 01 January 2017, which included regulations on evaluation and recognition at fair value. However, there is no specific instruction for this matter; therefore, the Board of General Directors has considered and applied as follows:

- a) *Financial instruments are recognized and revaluated at fair value based on historical cost less provisions (if any) in accordance with current regulations.*
- b) *Monetary items denominated in foreign currencies shall be evaluated based on the actual exchange rates;*
- c) *For assets and liabilities (except items a and b as mentioned above), the Company does not have any basis to determine the reliable value; therefore, the Company records at historical cost.*

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and deposits with the term of less than 03 months.

Financial investments

Trading securities

Trading securities are those the Company holds for trading purpose. Trading securities are recognised from the date the Company obtains the ownership of those securities and initially

measured at the fair value of payments made at the transaction date plus directly attributable transaction costs.

In subsequent periods, investments in trading securities are measured at cost less provision for impairment of such investments.

Provision for impairment of trading securities is made for each type of securities which are traded on the market and its market price is lower than the original price. To determine the fair value of trading securities listed on the securities market or traded on UPCOM, the fair value of securities is the closing price at the balance sheet date. If there is no transactions on the securities market or UPCOM at the balance sheet date, the fair value of the securities is the closing price at the day before the balance sheet date.

The change of provision for impairment of trading securities at the balance sheet date is recognized in financial expenses.

Equity investments in other entities

Equity investments in other entities represent the Company's investments in ordinary shares of the entities over which the Company has no control, joint control, or significant influence.

Equity investments in other entities are carried at cost less provision for impairment.

Provision of loss for equity investment in other entities as follows:

- For investments in listed shares or the fair value of a defined investment, provision is made based on the market value of the shares.
- For an investment that does not have a fair value at the reporting date, provision is made based on the investee's losses at the rate by the difference between the actual contributed capital of the parties at other unit and owner's equity multiplied by the ratio of capital contribution of the Company to the total actual contributed capital of the parties at other units.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the weighted average method and is recorded using the perpetual method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods, including:

Tools and supplies: Tools and supplies which have been used are allocated into expenses using the straight-line method no more than 03 years.

Other prepayments: Other prepayments which have been recorded at cost are allocated into expenses using the straight-line method no more than 03 years.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation. The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

| | Estimated useful lives |
|--------------------------------|------------------------|
| Buildings and structures | 12 - 25 |
| Machinery and equipment | 05 - 06 |
| Motor vehicles and conveyances | 06 - 10 |
| Management equipment | 03 - 05 |

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the combined income statement.

Intangible assets and amortisation

Land use rights

Intangible assets represent land use rights that are stated at cost less accumulated amortisation. Land use rights are amortised using the straight-line method over the duration of the land use right. Land use right with indefinite term is not amortised.

Computer software

Computer software is initially stated at cost and is amortized using the straight-line method over its estimated useful lives.

Payables and accrued expenses

Payables and accrued expenses are recognized for future amounts payable related to goods and services received. Accrued expenses are recognized based on reasonable estimates of the amount payable.

The classification of payables into trade payables, accrued expenses, and other payables are made on the following principles:

- Trade payables reflect payables arising from purchases of goods, services, assets and sellers are independent units to Company.
- Accrued expenses reflect amounts payable for goods or services received from the seller or provided to the buyer but not be paid due to lack of invoices or incomplete accounting records and documents, payments to employees for leave and prepaid production and business expenses.

- Other payables reflect non-trade payables and does not relate to the purchase, sale or supply of goods or services.

Equity

Owner's contributed capital is reflected as the actual charter capital contributed by the shareholders.

The distribution of profits of the Company is made in accordance with the Resolution of the General Meeting of Shareholders, the provisions of the Regulation on financial management of the Company.

Revenue recognition

Revenue is recognized when the Company is capable of receiving economic benefits that can be reliably determined. Revenue is determined at the fair value of the amounts received or to be received after deducting trade discounts, sales rebates and sales returns. The following specific recognition conditions must also be met when recognizing revenue:

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each period by reference to the percentage of completion of the transaction at the balance sheet date of that period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Company;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on an accrual basis, by reference to the principal outstanding and at the applicable interest rate.

Foreign currencies

Transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. The balances of monetary items denominated in foreign currencies as at the balance sheet date are retranslated at the exchange rates on the same date. Exchange differences arising from the translation of these accounts are recognised in the combined income statement. Unrealised exchange gains as at the balance sheet date are not treated as part of distributable profit to shareholders.

Borrowing costs

Borrowing costs are recognised in the combined income statement in the year when incurred.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the combined income statement because it excludes items of

income or expense that are taxable or deductible in other years (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the combined financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Company intends to settle its current tax assets and liabilities on a net basis.

The determination of the tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations.

Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

Related parties

Parties are considered to be related when one party has ability to control another or has significant influence in making decisions related to financial and operational policies. Parties are also considered as related parties when they bear the same control and significant influence.

When considering the relationship of related parties, it is more focused on the nature of the relationship than the legal form.

Ho Chi Minh City, *24* October, 2025

Explanation of the difference in profit
compared to the same period last year in
the combined financial statements.

To: - The State Securities Commission;
- Ha Noi Stock Exchange.

- Pursuant to Clause 4, Article 14 of Circular No. 96/2020/TT-BTC dated November 16, 2020 issued by the Ministry of Finance providing guidelines on disclosure of information on securities market.

- Based on the business results of Quarter 3, 2024 and Quarter 3, 2025 as presented in the combined financial statements of Power Engineering Consulting Joint Stock Company 3;

Power Engineering Consulting Joint Stock Company 3 would like to explain its business results for Quarter 3, 2025 compared to the same period last year:

Comparison of business results in Quarter 2, 2025 and the same period in 2024:

| No. | Indicator | Quarter 3, 2024 | Quarter 3, 2025 | Difference | Compare (%) |
|----------|----------------------|-----------------|-----------------|----------------|--------------|
| <i>a</i> | <i>b</i> | <i>c</i> | <i>d</i> | <i>e=d-c</i> | <i>f=e:c</i> |
| 1 | Net revenue | 27,772,474,104 | 114,789,208,563 | 87,016,734,459 | 313.32% |
| 2 | Net profit after tax | 252,608,084 | 5,822,245,140 | 5,569,637,056 | 2204.85% |

The profit after tax in the combined financial statements for Quarter 3, 2025, changed by over 10% compared to the same period last year, mainly due to The urgent projects that had been approved were implemented and successfully accepted during the third quarter; therefore, revenue increased compared to the same period last year.

Above is our Company's explanation regarding changes in profit after tax compared to the same period last year in the combined financial statements for Quarter 3, 2025.

Best regards./.
